Valuation of County Land Increases

GAIN OF \$11.90 AN ACRE SHOWN IN 1936 REPORT

Average Valuation Fixed at \$70.39 Compared With \$58.48 Year Ago

MORTGAGES DECREASE
11 More Deeds Filed Than in Previous Report, County Recorder Shows

Acreage valuation on Pickaway county farm land jumped \$11.90 during the year ending June 30, as compared with the previous one-year period. County Recorder Hilda Burns completed her annual state report, Tuesday, showing the increase.

The average valuation this year is \$70.39 as compared to \$58.48 last year. The 1936 report lists 521 deeds filed as compared to 510 last year, and reveals a marked increase in transfers of city lots. Circleville lot transfers amounted to 163 as compared to 135 last year.

300 Lands Transferred
Transfers on agricultural lands, other than those listing \$1 considerations, amounted to 76 in the 1936 report, covering \$534,222 acres with a valuation of \$389,552.09. The deeds filed in 1935 covered 224 covering 19,549.71 acres. The total acreage involved in the report is 25,086.77 valued at \$474,250.36.

In 1935 the deeds on agricultural land, other than \$1 considerations, totaled 90, included 7,422.40 acres and placed the valuation at \$434,180.27. Deeds listed in nominal considerations amounted to 256 and acreage was listed at 34,289.04. The total acreage in the report was 41,712.44 and the money involved \$468,219.

Leases decreased during the last year, the report showing a total of 20 for 1936 and 33 for 1935. Three were filed for 1,735.08 acres of land used for game refuges. Seventeen were filed for city lots amounting to \$16,729.

In 1935, three leases were filed on 172.91 acres of land; nine on city, town and village lots amounting to \$5,711, and 21 on mineral and oil lands amounting to \$3,219.23.

A decided drop in mortgages is shown. The report lists 325 while last year the figure was 416. (Continued on page seven)

HUSBAND IS NAMED

Will of Jessie L. Colwell, filed in probate court Tuesday afternoon, leaves all property to her husband, Harley B. Colwell, N. Court street, and names him as executor. The will was written July 18, 1925.

TWO DISCLOSE HOW THEY REMAIN COOL

At least two Circleville residents solved the heat problem Tuesday night. Bob Armstrong, deputy sheriff, reported a cool night's rest. He soaked the sheet in the bathtub, then turned an electric fan on the bed. Lawrence Goeller, Montclair addition, purchased a 100-pound cake of ice and cooled out one room by turning an electric fan on the ice.

RETAILERS PLAN MAJOR EVENTS IN EACH MONTH

I. W. Kinsey Urges Managers to Co-operate to Seek More Business

Five major sales events to boost Circleville business during the remainder of the year were outlined to members of the Retail Merchants association Tuesday evening at a meeting held in the Chamber of Commerce room. One event is scheduled each month.

The first sale will be held during the camp meeting session at the Mount of Praise, conducted by the Churches of Christ in Christian Union of Ohio. Camp meeting sessions open Aug. 19 and continue 12 days. Merchants plan to erect a large welcome sign over the main corner and conduct extensive sales on seasonal items.

September For Styles
September will be featured as "Style Month" with all stores preparing colorful window displays. Plans are being worked out to hold a style parade or some other type of community event.

During the Pumpkin Show from Oct. 21 to 24, local merchants will hold a "Carnival of Bargains." The November program will include some type of a community contest for cash prizes with drawings every week. Arrangements for the contest have not been fully completed.

Merchants have planned a Santa Claus feature for December. The program will include the arrival of Santa Claus in Circleville and a community celebration, especially Continued on Page Eight

GIRL NAMES MAN IN LUCIANO BAND AS KNIFE - USER

WASHINGTON, July 15—(UP)—Two Washington detectives went to New York today to bring back the man who Jean Bell says carved Charles (Lucky) Luciano's initials on her abdomen and left her to die in a gas-filled apartment. The object of the early morning mission was 34-year-old Leo Maimone, who is reputed to be a "muscle-man" for Luciano, the former underworld chief who was sent to jail when his \$12,000,000 "white slave" syndicate was shattered. Maimone will be brought to the capital with Joseph Silver, 38, of Brooklyn, who has also figured prominently in the "thousand-and-one tales" told by Miss Bell. Both men have been arrested on warrants charging assault with intent to kill.

HUNSICKER BOY SUFFERS INJURIES TO RIGHT FOOT

Clark Hunsicker, Jr., son of Mr. and Mrs. Clark Hunsicker, W. Union street, suffered three crushed toes Tuesday afternoon when his right foot was caught in the heavy door of a wheat dump at his father's elevator near Williamsport. The boy was taken to Berger hospital where he was treated and removed to his home.

GOVERNOR NICE, 250 ON CRUISE TAKEN OFF SHIP

Vacation Steamer Rammed by Big Freighter in Chesapeake Bay

12 PERSONS INJURED

All Passengers Removed at Baltimore; Blasts Heard During Dance

BALTIMORE, Md., July 15—(UP)—More than 250 persons rescued from the excursion steamer State of Virginia after she was rammed by the freighter Golden Harvest landed here today.

Among those taken from the steamer were Gov. Harry Nice of Maryland, other state officials and members of the Automobile Trade Association, which had chartered the vessel for a two-day Chesapeake bay cruise.

Twelve passengers were slightly injured when the Golden Harvest ploughed into the Old Bay Line steamer shortly before midnight last night off Seven Foot Knoll in the Chesapeake bay below here. All were given first aid treatment and sent home.

Both Ships Beached
Both ships were beached today in cut-off channel, a narrow point in the bay about 50 miles below here. Both crews remained aboard their ships. The coast guard cutter Apache, after unsuccessful efforts to extricate the bow of the Golden Harvest from the hull of the State of Virginia, stood by to offer assistance.

Passengers from the State of Virginia were first taken aboard the ocean-going freighter Golden Harvest and later transferred to the ferry, Pittsburgh.

A gay floor show and dance was going on when four sharp blasts of the State of Virginia's whistle signaled a collision was imminent.

NEGRO, 32, HELD AS ATTACKER OF WOMAN IN SOUTH

MONTGOMERY, Ala., July 15—(UP)—Roosevelt Collins, a thin, trembling negro of about 32, was hidden in Kilby state prison today from a mob determined to lynch him for an attack on Mrs. Lulu Mae Hill, 25-year-old white woman.

Mrs. Hill confronted him and identified him, before he was taken to prison, in a small hotel in Birmingham where officers held him from late yesterday until 1:30 a. m. today.

The negro arrived at the prison in pitiable physical condition from 24 hours of flight through swamps and woodlands about Aniston, he still was caked with swamp muck, his eyes were bloodshot, and his clothes literally was almost torn from him.

MONROE BRIDGE PROJECT ASKED BY WPA OFFICE

Another Pickaway county bridge project has been submitted to WPA headquarters for consideration. The proposed bridge improvement is in Monroe township on the Palestine-Williamsport road. The bridge would be a rigid frame concrete arch structure with a 59-foot span and 26-foot roadway. Federal funds are listed at \$10,268 and the cost to the county, \$5,813. The road is to be improved under the state works program.

STORES FULL OF BARGAINS FOR GREAT SALES EVENT

A 3-day sales event, "Circleville Days", is advertised in Wednesday's Herald by Circleville's progressive merchants. Every store participating in the big bargain event will be marked

by a sign in the display window: "This Store is Participating in Circleville Days." Bargains galore, to satisfy every pocketbook in Circleville and its trading area, have been

arranged by the various stores for the three days. The sale will be conducted Thursday, Friday and Saturday. All stores are ready for the influx of customers expected to take advantage of the finest "bargain" opportunity in recent years. Every participating store is filled with real "buys", arranged and marked to facilitate shopping.

All persons are urged to carefully study the advertisements in the 18 pages of today's Herald. Make a list of things you need, then visit the stores advertising them.

And remember, the early buyers will get their choice of all available items.

Map NUSJ Convention Plans

IN CLEVELAND to map plans for the National Union for Social Justice convention in August and to advise on strategy in electing NUSJ endorsed congressional candidate in Ohio, the Rev. Charles E. Coughlin, head of the NUSJ, is pictured, right, with Sylvester V. McMahon, national secretary and Ohio state supervisor of the union. The visit was co-incidental with the beginning of the Townsend convention in Cleveland. The radio priest is opposing congressmen who voted against the Frazier-Lemke farm mortgage inflation bill even if the men are liberals and have voted for labor measures.

COUNCIL MEETS, HOPKINS READY TO AID FARMERS

Rate Not to be Talked; Seek Brief Session

Councilmen were hoping for a brief meeting Wednesday night because of the torrid heat, and from all indications no subjects requiring lengthy discussions one on schedule.

The light rate ordinance was not expected to come before the city dads. They have held no committee meetings since the last regular council meeting when it was given a second reading. Before the ordinance is referred back to council the members expected to hold an open meeting with interested consumers and then prepare their recommendations.

One of the subjects listed for discussion will be the extension of water lines. Council's service committee and city officials conferred with a representative of the water company this week on the extensions.

F.D.R. BECOMES GRANDDAD AGAIN; BABY IS ELLIOTT'S

FORT WORTH, Tex., July 15—(UP)—Elliott Roosevelt Jr., was the name announced today for the new 6½ pound grandson of the president, born in a Fort Worth hospital shortly before midnight to Mr. and Mrs. Elliott Roosevelt. The child, the couple's second, was reported to be doing well, as was the mother, formerly Ruth Goggins of Fort Worth. The first child, Ruth Chandler Roosevelt, is two years old.

CITY PAYS \$5,087 FOR SHARE OF PAVING BRICKS

Circleville paid the county \$5,087.03 Wednesday in settlement of its share of bricks purchased for the Court street repaving project

Relief Chief is Discussing Permanent Area Program

WASHINGTON, July 15—(UP)—Federal agencies directed a three-fold relief program today to ward permanent re-establishment of farmers in the drought area as well as temporary relief.

WPA Administrator Harry L. Hopkins, in announcing the government aim of a permanent program, did not reveal details. It was understood the program still is in the formative stage.

He indicated, however, that repeated droughts in the "dust bowl" area during the past seven years had emphasized the necessity for a permanent program. Otherwise, it was said, drought disasters may continue to recur.

CHURCHMEN SEE END OF NATION'S DROUGHT

NEW YORK, July 15—(UP)—Good churchmen observing St. Swifth's day today predicted that the troubles of the drought regions are over.

For, according to a verse well known as early as the 12th century:

St. Swifth's day, if thou dost rain
For forty days it will remain;
St. Swifth's day, if thou beest fair
For forty days 'twill rain na mair.

Rain and cooler weather were expected over virtually all the drought area today.

PENSION PARTY MOVING TOWARD CHANGE IN LAW

Reports in Cleveland Say \$200 Month to be Asked for Aged

CLEVELAND, July 15—(UP)—Dr. Francis E. Townsend, co-founder of Old Age Revolving Pensions, Ltd., today circulated among delegates to OARP's second annual convention a proposed twenty-second amendment to the U. S. Constitution to guarantee a \$200 a month "citizens' service award" to all Americans of 60 years or more.

The amendment appeared as Townsend and his aides maneuvered to transform the national movement in behalf of the aged into a new "town hall" political party pointed toward the 1940 presidential election.

Thousands of cheering delegates swarmed into the hall where Republicans last month nominated Gov. Alf M. Landon for president. More than 9,000 voting delegates had been registered today as the 9 a. m. hour for the meeting of the convention came and passed. Delegates milled in the aisles and whooped it up for a boys' band from Akron, O., which toured the hall.

Townsendites were almost as good a draw here as Republicans. The lower floor reserved for delegates filled rapidly and at 9:35 a. m., there were several thousand persons in the galleries.

Townsend arrived a minute later and received an ear-splitting scream of welcome in which the shrill voices of women seemed to predominate.

ENGLAND HANGS MOTHER OF FIVE AS MURDERESS

EXETER, England, July 15—(UP)—Mrs. Charlotte Bryant, 33, mother of five children, was hanged today for the murder of her husband. She was the second woman to be executed in England this year, of six convicted of murder.

Mrs. Bryant was convicted of poisoning with weed killer her husband, Frederick John Bryant, 39, a farm laborer at Coombe. The crown's case against her was that she wanted to marry another man. This man, however, testified that he told her he would not marry her.

ALLEN FUNERAL 10:30 A. M.
The funeral for Mrs. Ellen Allen, 91, will be held Thursday at 10:30 a. m. in the Morris U. B. church. Burial will be in Hitler Ludwig cemetery. Mrs. Allen leaves three sons, a brother and sister.

FALL OF MERCURY FORECAST TONIGHT

All-Time Record Established in Circleville Tuesday Afternoon as Mark of 109 Degrees Is Reached; 82 Low Register During Night

DETROIT PROVIDED NEEDED RELIEF

Ohio Expected to Be One of Last States to Get Comfortable; Death Toll Still Climbing

CHICAGO, July 15.—(UP)—Two great waves of cool air rolled over the mid-west from the north today to check the carnage of 12 days of terrible heat at a little less than 2,750 lives.

One wave swept out of the Hudson Bay region of Canada, across the Great Lakes toward the eastern end of the heat zone. The other, product of the Pacific northwest, approached the Mississippi and Ohio river valleys from the great plains states, pouring life saving drizzle across drought ravaged wheat fields and cattle ranges.

Both waves brought heavy rains which may reverse withering corn crops and end a six weeks' drought that has caused an estimated half billion dollars damage to states.

Michigan Relieved
The northern wave of cool air brought relief to Michigan, hardest hit state in the drought area.

City Records Broken

All existing Circleville heat records were broken when the temperature reached the 109-degree mark Tuesday afternoon. R. Clarke's government thermometer, never before in 25 years of observing, can Dr. Clarke remember a previous day so high. The mercury fell only as low as 82 during the night. The day, too, marked the seventh consecutive day that the reading has been over 100 degrees. The first was July 8 when it was 104; July 9, 108; July 10, 105; July 11, 104; July 12, 106; July 13, 103, and July 14, 109.

idents, who gasped in a 103-degree temperature yesterday, spent their first comfortable night in nearly a week. The thermometer dropped to 70 degrees at midnight. Rains, some violent, scattered across the entire state.

As the blistering heat entered its 12th and probably final day, its victims numbered 2,602 in three-fourths of the United States. At least 100 more, mostly aged persons, infants, and those whose illnesses were aggravated by high temperatures, were expected to succumb before relief became complete.

Minnesota cooled off as the western wave rolled into the upper reaches of the Mississippi valley last night. The twin cities, St. Paul and Minneapolis, whose hospitals, like Detroit's, worked on an emergency basis yesterday through another day of killing heat, got a three minute shower at 7 o'clock last night. The clouds remained.

The residents of seven other states—Illinois, Wisconsin, Iowa, Missouri, Ohio, Indiana and Kentucky—bore their suffering through the night grimly, confident of relief before another day was passed. J. R. Lloyd, government forecaster in Chicago, predicted local thunderstorms today for all seven states. Kentucky and Ohio may be the last to receive relief, he said.

Double Purpose Served
The rains and cool air following served a double purpose. They revived the dying corn crop, which if added to the pastureland and Continued on Page Ten

FARLEY APPOINTS HOWE'S WIDOW AS POSTMISTRESS

WASHINGTON, July 15—(UP)—Mrs. Louis McHenry Howe, widow of the late secretary to President Roosevelt, takes office at the close of business tonight as acting postmistress at Fall River, Mass. The appointment was made by Postmaster General James A. Farley.

The Junior fair board meets in the county school office at 7:30 p. m. Wednesday to arrange the Pumpkin Show premium list.

CLERK'S REPORT SHOWS FIGURES CONCERNING JOB

Judgments were returned in 54 suits in common pleas court during the year ending June 30, amounting to \$73,334.59 or an average of \$1,358.03 per suit. A. L. Wilder, clerk of courts, revealed Wednesday morning. The figures were listed in the annual report of the office submitted to the secretary of state.

During the year 191 civil actions were filed and 160 disposed of by the court. Jury fees amounted to \$1,693.16. Sixty-four divorces were filed and 48 decided. Divorces were obtained by 27 wives, 12 husbands, 8 cases were dismissed and one divorce was refused.

Fifty-six new criminal cases were listed for the year, 18 carried over from the previous year. Twenty-eight pleaded guilty, 28 were found guilty by the court with juries waived, 27 cases pending, two dismissed and one acquitted. The forty-four cases handled this year included 23 formatory and prison sentences, given fines and costs, 8 sentences and one jail sentence. The cases were charged on an average of 9 months.

ED OFFICER IGHT JOB TO COVER" FLEET

Farnsworth in Jail as Uncle
Sam's Agents Probe
Espionage

WASHINGTON, July 15—(UP)—John S. Farnsworth, former high naval officer charged with espionage, attempted more than 15 months ago to obtain an assignment as a newspaperman to "cover" the U. S. naval maneuvers in the western Pacific.

The navy rejected his application, official sources revealed today, when he failed to submit a formal letter from the syndicate he claimed had requested him to accompany the fleet. Farnsworth did not repeat his application.

Man of Mystery
Farnsworth, since his dismissal as lieutenant commander in 1927 on court-martial conviction of "scandalous conduct tending to impair the morals of the service," has been a "man of mystery". In district jail infirmary he still was that.

Although naval intelligence officers revealed they had had Farnsworth "under suspicion" for more than a year, little was known of his activities, his associates or the possible ramifications of his alleged espionage.

The only specific charge against him was that he obtained a confidential naval defense document and sold it to an agent of the Japanese government on May 15.

But naval intelligence and department of justice agents, who took Farnsworth into custody early yesterday, indicated a belief that there is "much more" behind the case than that one indictment. If the names of those with whom he allegedly dealt are known they were not revealed. Officers were reported searching for several other Americans and one or more Japanese under suspicion of participation in a spy ring.

BLIGHT TO CUT PRODUCTION OF FRANCE'S WINES

PARIS (UP)—The dreaded blight again threatens France's wine crops this year. Unfavorable conditions ranging from late warm weather to late frosts with continued rains have caused some sections of France to have a bad crop with the result that already has attacked the vines in several regions.

It is expected that France's wine production for 1936 will be from 1,000,000,000 to 3,000,000,000 liters less than the average year.

The late cold wave caused complete losses in some restricted localities, but not over wide areas. In many regions, notably the Vouvray, Chinon and Sauterne districts, floods damaged vines situated in low sections, while those on the hilltops were untouched. The Medoc wines were saved, due to the care of the vineyard workers, who frequently stayed up many nights to guard the delicate vines from frost.

In Alsace, frost and hail blackened some of the leaves, and stripped others in spite of the use of anti-hail shells, which were mistaken by tourists as the reopening of hostilities with the Germans a few miles away on the other side of the Rhine River. It is estimated that only 10 per cent of the Alsatian vines will not produce this year.

THEATRES

AT THE CLIFTONA

A few years ago a curly-haired youngster came to Hollywood in search of cinema fame. He had been on the stage since graduating from Yale University. He was cast in a prominent role in "All Quiet On The Western Front," and registered a commendable performance. However, he was not satisfied with his work, so he returned to the stage for further seasoning.

Today insiders are predicting that Owen Davis Jr., will be hailed as a new find of the silver screen as a result of his performance in the title role of RKO Radio's entertaining comedy, "Bunker Bean," in which he is co-starring with the pliant Louise Latham, another youthful Broadway knockout at the portals of screen stardom.

The Schmeling-Louis fight picture, which the Cliftona has held over for one more day will be shown with the above feature!

AT THE GRAND

"Brides Are Like That," a first national picture starring Ross Alexander, Anita Louise and Joseph Schildkraut is the picture at the Grand Theatre this evening. The picture is the voice of the Movie Sweepstakes and is scheduled to run.

THE OLD HOME TOWN by STANLEY

COAST DEFENSE GETS NEW GUNS

SAN FRANCISCO (UP)—The Pacific Coast's defense soon is to be augmented by the installation of four new 16-inch guns, according to announcement of Major Gen. George S. Simonds, new commander of the 9th Corps Area.

With a range of nearly 30 miles at sea, the new guns always will have the job—if they ever have one—of firing at invisible targets. Just as a matter of practice, it is expected that the gun crews will be given precisely that opportunity by shooting at invisible targets at that distance.

Installation of the massive pieces of ordnance will give San Francisco the ultimate in protection from invasion by a foreign fleet.

Guns, stationed beside the huge guns—called 16-inch rifles in army parlance—can bombard enemy ships with projectiles weighing more than a ton while the vessels are far beyond the range of vision of observers on the coast.

The guns were built as part of the Army's policy of expanding fighting units and stiffening coast defenses, approved by the last Congress.

While 50 or 90 men will be used to fire each gun, double that number is needed for range-finding and other details of firing at an unseen target. In time of war army officials state, 200 men would be assigned to each gun.

The huge concrete and steel gun carriages or bases will be set up north and south of the Golden Gate. Two will be erected at Fort Funston and two at Tennessee Point in Marin County, on the opposite side of the Golden Gate from San Francisco.

The guns measure 66 3/4 feet in length. They recently were completed at one of the Navy arsenals and were checked and fired at the

Aberdeen Proving Grounds at Aberdeen, Wash.

Work on preparing the concrete bases for the guns has begun.

POSTMAN GETS ONLY REBUKES AS LIFE SAVER

DEARBORN, Mich. (UP)—Edwin Probst likes to whistle on his mail route, and affords others pleasure, but when he really tries to be of help to people he doesn't come out so well.

Most women on Probst's route in Dearborn can start their dinners when they hear the postman whistling, but one varied the procedure. "The lady heard my whistle," Probst explained. "She came out on the porch and called to me: 'Good bye, I'll be dead in 10 minutes.'"

"I thought it was a joke, and she went back in and shut the door. But then I began to worry and called police. They broke a window and found her working a jig-saw puzzle. Gas was pouring from a stove. I saw her just the other day. 'After this, you mind your own business,' she yelled. 'It's none of your affair if a person wants to die.'"

"Soon after that I took a letter to a house and saw the living room full of smoke and flames. I tried to rouse somebody, and then I ran and turned in an alarm."

"The fire department crashed

the door, because the owner wouldn't let them in. They had to push him aside and put the fire out. He had gone to sleep on the couch while smoking."

U. S. WILL USE NEW APPARATUS TO TEST GRAIN

WASHINGTON (UP)—A new mechanical device has been announced by the bureau of agricultural economics, Department of Agriculture, for applying grade specifications of the United States grain standards which require sieving and sizing operations. The new machine has been named the federal dockage tester.

The new device has been installed in all offices of federal grain supervisors throughout the country, the bureau said, and will be employed in the official supervision of grain inspection. It will also be used in the handling of appeal inspections under the United States Grain Standards Act when the 1936 grain crops begin moving to market.

Designing the device with the objective of developing a single machine that will have several

sieving and sizing determinations with a maximum degree of accuracy and uniformity took many years of research, the bureau said. Although the principles of the

machine are not new, their assembly in one device, as well as the refinements made in mechanical operation, marks a distinct progress in grain-grading equipment.

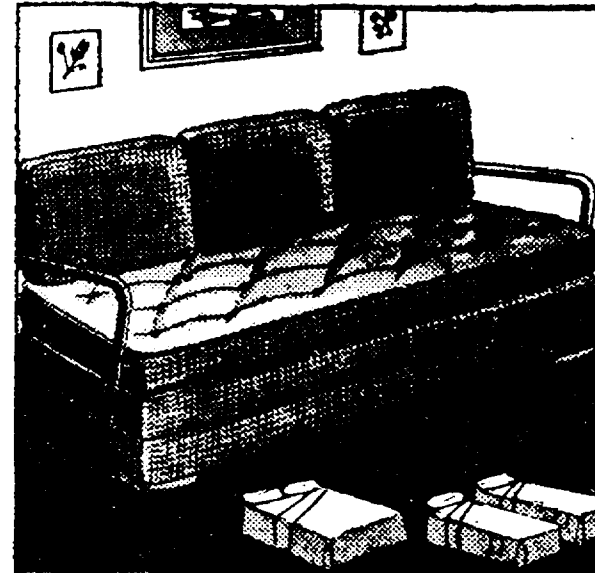

Tests which may be made with the new device, according to the bureau, are: the separation of dockage material from wheat, rye, barley, grain, sorghums and flax

seed; the removal of cracked kernels of corn and of grain husks from these grains, and the sizing of barley and oats.

LABOR FEDERATION MAY TRY "REBEL" ORGANIZATION

COUNCIL URGES FORMAL ACTION IN CONFERENCE

Lewis and Aides Refuse to Attend Meeting to Plead Their Cause

WASHINGTON, July 15—(UP)—The American Federation of Labor executive council, sitting in judgment of 12 insurgent unions, was reported today to have decided upon a formal trial of the "rebels".

This was the day which had been set for the showdown on refusal of 12 committees for industrial organization members led by John L. Lewis to accede to A. F. of L. demands for dissolution.

Question Debated
For a week the council has debated the issue. Some of the 16 members have demanded immediate expulsion. Others have counseled a more moderate course, pointing out that expulsion would complete the greatest dual split in the history of organized labor in the United States.

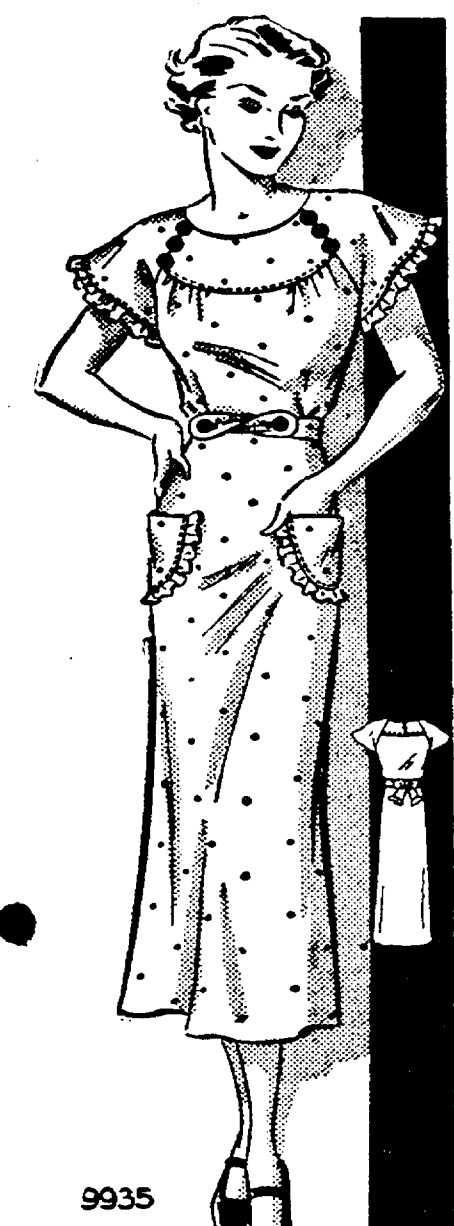

In 11th-hour informal conferences last night, A. F. of L. leaders were reliably reported to have decided to sidestep an immediate showdown and vote instead a formal citation against C. I. O. members to appear for trial before the council, probably in two or three weeks.

So far no formal charges have been drawn by the council. Lewis and his aides, in refusing an invitation to appear before the council to plead their case last week, insisted the council dared not

Marian Martin

CRISP RUFFLES ADD TO CHARM OF MARIAN MARTIN MORNING FROCK PATTERN 9935

You'll be a refreshing sight when you slip into this crisp "at home" frock and wear it proudly from Sun-up to the drying of the last supper dish at night. Fem-

nine ruffles trim the brief sleeves and round pockets with casual buttons bring out the shoulder lines and smart yoke. The novel belt is fetching, too. Choose a pretty fabric—dimity, perhaps—or printed gingham, colorful muslin, gayly sprigged percale or poplin, with contrasting ruffling in dainty organdy. You'll find it easy to turn amateur dressmaker, for a few hours as the Complete Diagrammed Marian Martin Sew Chart simplifies every cutting and stitching detail.

Pattern 9935 may be ordered only in sizes 14, 16, 18, 20, 22, 24, 26, 28, 30 and 32. Size 16 requires 3 1/2 yards 36 inch fabric and 1 1/2 yards ruffling.

Send FIFTEEN CENTS in coins or stamps (coins preferred) for EACH MARIAN MARTIN pattern. Be sure to write plainly your name, ADDRESS, the STYLE NUMBER and SIZE of each pattern.
Send for our MARIAN MARTIN SUMMER PATTERN BOOK—just out! See what's latest for women of every age. In every fascinating summer role the stay-at-home, the vacation or the bride, the deb-partying, tiny tots romping in the sun! Special slenderizing fashions, and accessories. Order this book NOW! PRICE OF BOOK FIFTEEN CENTS. BOOK AND A PATTERN TWENTY. TWENTY—FIVE CENTS.
Send your order to The Herald, Pattern Department, 210 N. Court-

Tales

GEORGE Douda, who operates The Herald's big press, is not an experienced smoker. The other day he was puffing on a big black cigar. Pressmen, it seems, have ink and oil on their hands every once in a while. It was all this time. The oil caught fire and just about burned George's nose. He's going to start taking lessons on the manipulation of cigars from his assistant, George Davis, who smokes with the best of them, oil or no oil.

TALL ONES

Do you know any tall stories? If you do please pass them on that someone else may enjoy a laugh.

split labor ranks during the critical C. I. O. drive to organize 820,000 steel, automobile and rubber workers into industrial unions.

FIREMEN MAKE RUN TO SCENE OF AUTO BLAZE

Firemen made a run to Highland avenue at 2 p. m. Tuesday to an auto fire. The car was owned by Ralph Kiser, Akron, visiting at the home of Joshua Linton. Ignition wires were the only part of the car damaged. Workmen at the state highway garage extinguished the blaze with fire extinguishers before the city truck arrived.

COLUMBUS MAN TO SERVE TIME FOR NO TAILLIGHT

Failure to have a tail light on his automobile will cause Dewey Glaze, 24, Columbus, to spend eight days in the county jail. Glaze was fined \$5 and costs of \$7.50 Tuesday afternoon by Squire H. O. Eveland. He was arrested Monday night on Route 23 by State Patrolman E. L. Rhodes. Alton Cain, city, paid \$25 and

END OF RELIEF FIGHT IS NEAR

Solons Expected to Pass Measure This Week

COLUMBUS, July 15—(UP)—The extended legislative controversy over Ohio poor relief appeared to be waning today, with the prospect that the legislature will pass a measure to finance relief needs for the remainder of 1936 by Thursday or Friday. Refusal of the house to pass the senate approved \$1,500,000 step-gap relief bill to provide funds for July resulted in a conference of senate and house leaders last night, at which a program for drafting a "permanent" relief bill was considered.

Informed of the conference, the house voted 65 to 29 against considering any other pending legislation in anticipation of being given a new relief bill by tonight. Those participating in the relief conference were Paul P. Yoder, Democratic leader of the senate; Sen. Bernard R. Donovan, assistant Democratic leader; Sen. Harold D. Nichols, (D) Clermont county; Rep. Frank R. Utble, Democratic leader of the house.

Senate spokesmen agreed that the senate tonight would consider the relief bill passed by the house last month, and have it back to the house by 1 p. m. for action on senate amendments. If the house refused to agree on senate amendments, a joint conference committee will be appointed. The committee would report before Thursday night.

costs to Eveland Tuesday on a charge of assault filed by Charles Leisure. Leisure told Eveland Cain struck him with a blackjack.

MRS. RENICK DIES
CHILLICOTHE, July 15—A heart attack was fatal Monday evening at her home near Kinnikinnick to Mrs. A. Mortimer Renick, wife of the former Chillicothe postmaster. The funeral will be Wednesday evening at 7 o'clock in St. Paul's Church.

COMMITTEES FOR ROTARY LISTED FOR NEXT YEAR

Committees for the Circleville Rotary Club, starting its year under new officers, were announced Wednesday by Karl J. Herrmann, the new president.

Crippled Children: chairman, Fred C. Clark; D. V. Courtright, Ernest Weiler, C. C. Young, and George Burch.

Finance: chairman, Durward Dowden; N. E. Reichelderfer, and Clark Will.

Music: chairman, E. C. Ebert; Charles Owens.

Sergeant-at-arms: Frank Lynch. Rotary Information: chairman, William Radcliff; Ray W. Davis, George Griffith, and Ross Hunsicker.

GREATER SAFETY FOR AMATEURS IN RING URGED

SACRAMENTO, Cal. (UP)—The 1937 national collegiate boxing tournament will be held in

Sacramento next April 2 and 3, according to tentative plans made by the Pacific Intercollegiate Boxing Association.

Divisional winners from all sections of the nation will come here to trade punches for titles.

Pacific Coast college fighters will hold their elimination tournament here a month in advance of the national event.

I. F. (Crip) Toomey, of the University of California's college of Agriculture, who has directed the Pacific Coast tournament for the past several years, said an effort would be made to change collegiate boxing rules before next spring, in an endeavor to give greater safety to young fighters who cannot get themselves in the best of condition during only a few months of training.

Attention was drawn to the need of changes when Judson Hobart, welterweight from the University of California at Los Angeles, died as the result of injuries suffered the second night of the coast tournament here two months ago.

One suggested change would require a ring mat at least two inches thick instead of the one-inch mat now in standard use. Another would force each victim of a knockdown, whether hurt

seriously or not, to take a long count of at least seven without loss of points before going on with the fight.

The Pacific Coast intercollegiate boxing tournament annually draws capacity crowds in Sacramento, and the national event next spring will be successfully financially, sports followers here believe.

4-H CLUB NEWS

The July meeting of the County Senior 4-H Club was held at the New Holland school on Monday

night, July 13. About 20 members and guests were present.

Mrs. Alonzo Mendenhall, of the music in the church, leader Mrs. Ross Hunsicker, Johnson, county agent from county, talked to the group on "Youth Deeds".

New Holland club served "hot weather" refreshments to the club at the close of meeting.

The August meeting is scheduled to meet at Athens on July 10 when a varied program will be presented.

weeks' visit with Mr. Grose's parents,
Mr. and Mrs. C. W. Stump.

Mr. and Mrs. M. H. Lamb and
Mr. and Mrs. Sterling Lamb returned
home Tuesday evening after
a tour through Canada and the
New England states.

Miss Mary K. Lytle of Dayton is
visiting her grandmother, Mrs.
Josephine Young, E. High street.

Miss Mary Campbell and Charles
Schilling of Columbus were
dinner guests Monday evening of
Mr. and Mrs. J. M. Kirwin and
family, S. Court street.

Joseph Kirwin and Eugene
Smith of S. Court street left Tuesday
evening by train for Cincinnati
where they will take a boat

for Pittsburgh and other points
along the Ohio river. They expect
to be gone a week or ten days.

Mr. and Mrs. Robert Armstrong,
Watt street, and her mother, Mrs.
W. H. Turner of Toledo, left Tuesday
for a trip to Niagara Falls, a
one week's visit in New York state.

TOWER YIELDS SOUVENIR
BERKELEY, Cal. (UP)—The
University of California is having
difficulty keeping the top of its
240-foot campanile intact. Authorities
have explained that the 15-minute
visit rule is not because
of a psychological tendency for
visitors to jump off, but to keep
too much of the top from being
cut off and carried away as
souvenirs.

Both Men and Women Dressed in Cool Silk

By LISBETH

WHAT'S THE matter with
our men? They actually are
doing something about their
clothing for hot weather. They

always have had a good deal to
say about women's foolishness in
the matter of dress, but why any
human who considers himself
intelligent—and most men do, I
believe—should wear heavy

woolen trousers, ditto coats over
their shirts, and sometimes even
vests, when the mercury hits the
100's passes the comprehension of
a mere female of the species.

Men have flitted around with
Palm Beach suits, white flannels,
duck trousers and all the rest,
but now they really are setting

down to business and have even
gone to the length of wearing
cooler evening clothes. Will
wonders never cease?

Here is a young man who looks
as cool, comfortable and smart
as the girl he is escorting. He
is wearing a double-breasted
suit of pure silk suiting launched
by London tailors, and wears silk
grosgrain evening oxfords.

Women Cool, Ohio
We should have described the
young woman's costume first, but
we couldn't resist the temptation
to talk about the man because,
as we said, cool, comfortable
looking clothes for men are
so much more of a rarity.

Women always look cool and chic.

However, the blonde being
escorted by the handsome cavalier
is wearing a printed silk
chiffon ensemble dress and full
length princess coat with black
velvet revers. The print is black
and wine on a cream ground. It
is worn with a square brimmed
sailor from Lilly Dachs.

Something new for autumn is
a silk satin with a leathery feel.
It is shown for early fall dresses

and, in heavier version, for
cocktail and dinner suits. These
are cired satins which also have
this leathery appearance, and
sometimes the finish is almost
like varnish.

Lacquered finishes, usually restricted
to satins, are now spreading to other fabrics. There
is a very new look to silk
taffetas with a cire finish, which
gives an effect of stovepipe
luster.

Many Social Functions to Honor Miss Selemmons

Bride-Elect of George Hitler Hostess for Friend July 27

A number of social activities are being planned for Miss Janet Selemmons, Columbus, bride-elect of Mr. George Davidson Hitler, preceding her marriage which will take place September 19.

Miss Selemmons will herself be hostess at a party on Monday, July 27, which she is giving in honor of another bride-to-be, Miss Charlotte Ann Waddell. Entertaining with Miss Selemmons will be Mrs. Mel Davis of Orient. An informal bridge party is planned at the Selemmons' home, 52 Westwood avenue.

Miss Marjorie Mosier, of 27 N. Monroe avenue, will entertain Thursday evening at a dinner party at the Tavernier.

Miss Selemmons is the daughter of Mr. and Mrs. John G. Whittier Selemmons, and her fiancé is the son of Dr. and Mrs. Gay L. Hitler. Their engagement and approaching marriage was announced Sunday.

Celebrate Birthdays

A pleasant evening was spent at the home of Mrs. Thomas Stofor, W. High street, when Mrs. Stofor and Miss Hazel Coleman entertained at a three course dinner in celebration of the birthday anniversaries of Thomas Stofor and Mrs. Estelle Coleman, husband and mother of Mrs. Stofor.

Those entertained were Mr. and Mrs. Charles Stofor, Miss Anna Kirkwood, Miss Coleman, Mrs. Stofor and the honor guests.

Loyal Daughters

A large group enjoyed the regular meeting of the Loyal Daughters Sunday school class of the United Brethren church when they met at the home of Mrs. Russell Jones, E. High street, Tuesday evening.

The business session was held at 8 o'clock after which a health talk by Mr. McAdow of Chillicothe was heard. The class decided to buy four new hymnals to be dedicated to deceased members.

Mrs. Walter Mavis was in charge of devotionals, and Mrs. Wava Poling won the contest.

The wonder-box held by Mrs. Ira Valentine was won by Mrs. Clarence Valentine.

Ice-cream, cake and cooling refreshments were served at the close of the evening by the hostess who was assisted by Mrs. Turney Ross and Mrs. Adolphus Pearce.

Present were Mrs. Albert Zwicker, teacher of the class, Mrs. Arthur Ankrom, Mrs. Stanley Goodman, Mrs. John Kerns, Polly Jane Kerns and Clifford Kerns, Misses Clara and Florence Lathouse, Mrs. Pauline Eshbenschade, Mrs. Elliott Mason, Mrs. May McCullough, Mrs. Dolly McAfee, Mrs. Walter Mavis, Mrs. Pearce, Mrs. Poling, Mrs. Harry Radcliffe, Mrs. Ross, Mrs. Nolan Simms, Mrs. Frank Hawkes, Mrs. Loring Davis, Mrs. Ira Valentine, Mrs. Clarence Valentine, Mrs. Lucille Newlin, the Misses Fannie and Priscilla Dudleyson, Miss Edith Willis, Miss Louise Cox, Mrs. Studie Peters and Miss Gladys Noggle.

Bridge Luncheon at Wardell's
A delightful evening was spent in the cool surroundings of the Wardell party home Tuesday when members of the men and women's

club enjoyed a social session at the close of a round of games.

The bridge game was preceded by a delicious two course dinner served at 7 o'clock. This was followed by several games of auction bridge with Mrs. Luther Bower and Frank Marion awarded the prizes for top scores.

Enjoying the party were Mr. and Mrs. Willis Liston, Mr. and Mrs. Gilbert Edgington, Mr. and Mrs. Dudley Carpenter, Mr. and Mrs. Luther Bower, Frank Marion, Miss Frances Jones and Mr. and Mrs. Lester Reid, of Chillicothe.

In two weeks' Mr. and Mrs. Dudley Carpenter, E. Mound street, will entertain the club.

U. B. Ladies' Aid

The Ladies' Aid society of the United Brethren church has changed the date of its regular meeting to Thursday, July 23 which is one week earlier than scheduled. The change is made on account of the Stoutsville camp meeting.

Yo-Yo Sewing Club

Miss Nellie Denman, E. Franklin street, charmingly entertained the Yo-Yo Sewing club at her home Tuesday evening. Owing to the heat, sewing was dispensed with and the evening was spent in social chat on the porch.

At a late hour dainty refreshments in pink and white colors were served at the long dining table lighted with tall white tapers.

Immediately following the camp meeting, Mrs. William Hegele, E. Main street, will entertain the club.

You Go—I Go Sewing Club

Five members of the You Go—I Go sewing club motored to Washington C. H. Tuesday afternoon to be entertained at the home of Mrs.

Favorite Recipe

MRS. LELAND PONTIUS,
583 N. COURT STREET

GINGER BREAD

One cup molasses
One cup sugar
One cup sour milk
Four cups flour
One-half cup butter
One-half cup lard
Four eggs
One tablespoon cinnamon
One tablespoon ginger
One tablespoon soda
One and one-half teaspoons baking powder

Pour the molasses into a mixing bowl. Add the boiling water to the soda and add it to the molasses. Stir in the shortening, eggs and sugar mixed with spices. Beat well. Sift together the flour and baking powder and add alternately with flour and milk. Beat until smooth, and pour into a large well greased baking pan. Bake 350 degrees F 45 minutes.

William Theobald and Mrs. Ella Partell.

A pleasant afternoon, followed by cooling refreshments, was enjoyed by Mrs. Eva Dresbach, Mrs. James Shaner, Misses Viola and Wahnta Smith, and Miss Daisy Murray.

No arrangements for the August meeting have been made.

Mrs. E. L. Price, E. Franklin street, left Tuesday evening for the Lancaster camp grounds to attend the annual conference of the Woman's Christian Temperance Union, which begins Wednesday morning at 9:30 o'clock and lasts through Thursday. At the afternoon session on Wednesday, Mrs. Viola D. Romans, president of the Ohio W.C.T.U., will be guest speaker and will give the high lights on the national convention held in June at Tulsa, Oklahoma.

COL. LINDBERGH PLANS TO VISIT HITLER JULY 22

Flyer to Inspect German Industry and Richtofen Air Squadron

BERLIN, July 15—(UP)—Col. Charles A. Lindbergh has accepted an invitation from Herman Wilhelm Goering, air minister, to visit Germany.

Lindbergh will inspect the German air industry and view the Richtofen squadron, assigned to the defence of Berlin. He is scheduled to arrive on July 22 at the airport, near Berlin.

Lindbergh also will visit the Olympic village but will not stay for the games. He is expected instead to leave about July 30 for Copenhagen, where he will attend the medical convention at which he and Dr. Alexis Carrel will demonstrate their artificial "heart."

Reliable sources said Lindbergh's visit here is not connected with possible German-American co-operation in trans-Atlantic air service, which has been tentatively proposed.

It was understood Lindbergh emphasized his trip is strictly private, but it was believed Fuehrer Adolf Hitler most probably would receive him in private audience at the chancellery.

SCHOOL CALLED MISUSED WORD FOR UNIVERSITY

CINCINNATI, (UP)—The undergraduate designation of a college or university as "school" is distasteful to Dr. Raymond Walters, president of the University of Cincinnati.

A former teacher of English, Dr. Walters advocates correct usage of terms for educational institutions.

"On the campus, in dormitories and fraternity houses, and also in undergraduate newspapers, the word 'school' is loosely used," Dr. Walters said.

"Cheer leaders and editors exhort students to do this or that for 'our school.' If we of the colleges and universities with a common term, we can employ 'institution' as being accurate. 'School' properly belongs to the high school, preparatory school, elementary school, and in certain cases to graduate or professional departments of universities."

TOBACCO NAMED PRINCESS PLANT BY SCOT IN 1611

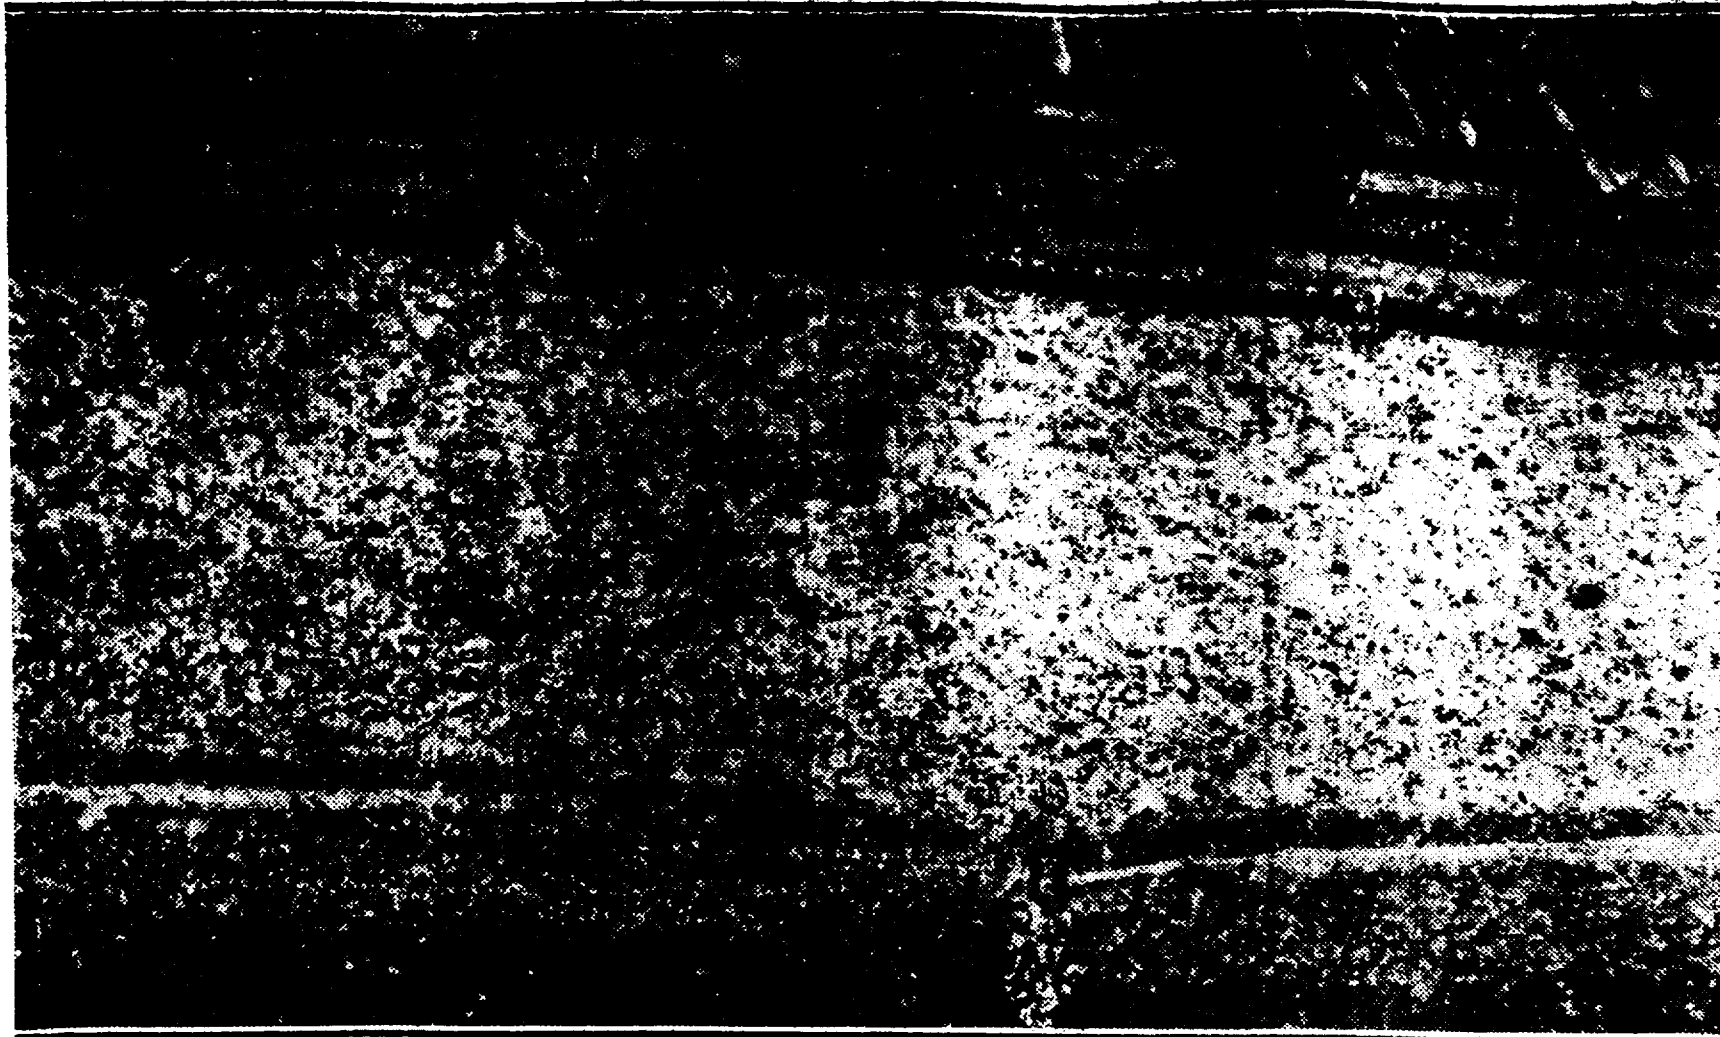

CAMBRIDGE, Mass. (UP)—No advertisement of today is more extravagant with its praise of tobacco's merit than was a certain Scotch physician, Dr. William Barclay, back in 1611.

The "good doctors" laudatory words concerning the weed were discovered in a monograph titled "Nepenthes or the Virtues of Tobacco," by Alfred C. Potter, for 48 years Harvard University's librarian.

Wrote Dr. Barclay:

"If (tobacco) preserueth from the toothach; it cureth the migraine, the colicke, the cough, the cold; it stayeth growing fatne; it is the antidotte of Hypochondriacke melancholie, it prepareth the stomacke for meat; it maketh a cleare voice, it maketh a sweet comfort nerues. . . . And in a breath, it cleareth the sight. . . . it few words it is the princesse of physical plants. . . ."

A Million Humans Blot Out Sands of Coney Island

Each of the little specks which almost cover the beach in this aerial view of Coney Island represent one of the 1,000,000 men, women and children from the steaming sidewalks and dwellings of the heat-scorching city, of New York who descended on their favorite beach as an oasis, away from the heat-scorching city.

STOUTSVILLE

Miss Martha Drake of Columbus spent Sunday with her parents, Mr. and Mrs. Arch Drake.

Mr. and Mrs. Vergil Cruik and daughter Doris of Columbus are spending a week with Mr. and Mrs. A. G. Courtright and Mr. and Mrs. William Creshbaum.

Mrs. Vess Colombar who has been on the sick list is reported improving.

Mr. and Mrs. Ernest Crites entertained to dinner Sunday, Mr. and Mrs. Elmer Huis and family of Columbus, O.

Mr. and Mrs. A. W. Conrad had for Sunday guests Mr. and Mrs. Glen Conrad and son of Circleville, Mrs. Elsa Stewart and two children of Ashville, O., and Mr. and Mrs. T. E. Kuhn.

TIRE BLOWOUT RUINS FOOD

NEW BRITAIN, Conn. (UP)—When a tire on a 10-ton truck loaded with foodstuffs blew out, the rubber began to burn because of the heat generated by the blowout. The smoke affected the food to such an extent that the food was condemned by Dr. Louis J. Dumont, superintendent of health.

Big, New, Money-Saving Dodge Beauty Winner Sedan (4-Door, with built-in trunk). \$760 list price, at factory, Detroit.

"18 TO 24 MILES PER GALLON OF GAS"

IN THE BIG, NEW, MONEY-SAVING DODGE "BEAUTY WINNER" OF 1936, OWNERS SAY

HAILED by noted auto editors and famous fashion authorities as the most beautiful car in Dodge history, the 1936 Dodge is already setting economy records throughout the country. Owners are reporting 18 to 24 miles per gallon of gas and savings up to 20% on oil.

But the new Dodge "Beauty Winner" gives you more than smart styling and amazing economy. It gives you all the things you should demand of a motor car—the "Air-Glide Ride"—a genuine hydraulic

brakes... safety-steer bodies... Balanced Driving Control... and more luxurians, more spacious interiors.

See this big, new 1936 Dodge today. Drive it. Compare it point for point with any competitor priced within \$500 of Dodge. And remember, Dodge now delivers here for only a few dollars more than the lowest-priced cars.

Through the Official Chrysler Motors Commercial Credit Company New 6% Time Payment Plan you will find it easy and less costly to arrange than payments to the bank.

GAIN OF \$11.90 AN ACRE SHOWN IN 1936 REPORT

Continued from Page One

ing the last year 171 agricultural land mortgages were filed covering 17,863.89 acres and amounting to \$588,404.49. Nine were filed on lands in city limits covering 4.75 acres, valued at \$32,680.10. A total of 145 was filed on city, town and village lots and the amount involved was \$211,647.49. The total acreage included in the mortgages is 17,868.64 and mortgages on all properties amounted to \$832,732.08.

Higher In 1935

In 1935 the mortgages filed on agricultural lands amounted to 260, covered 32,082.55 acres and totalled \$974,464.86. Those on lands in corporate limits were 16, covering 18.87 acres and totalled \$57,204.12. City, town and village lot mortgages were 140 and were listed at \$175,125.23. The total acreage was 32,101.42 and the amount involved \$1,206,794.21.

Cancellation of mortgages went for a tailspin this year due to the release of a \$2,000,000 light utility mortgage. The number of mortgages cancelled was 311, or 161 on agricultural lands, 15 on lands in corporate limits and 135 on lots. Those released on farm lands included 13,469.04 acres. The total amount on released mortgages was \$2,715,416.83.

Last year's report listed 430 mortgages cancelled or 276 on farm land; five on land in corporate limits and 149 on lots. The acreage was 28,686.27 and the amount of the mortgages \$1,193,575.16.

Paper Waste Binds Roads

SALEM, Ore. (UP)—Oregon and Washington pulp mills are now selling the liquid waste remaining after the manufacture of paper from hemlock to eastern highway departments for use in "binding" materials for highway shoulders, State Forester J. W. Ferguson has discovered.

HEARING POSTPONED

Mayor W. J. Graham has postponed the hearing for William J. Thomas, 49, Fairview avenue, on a charge of driving when intoxicated, for another week. The hearing was scheduled for Tuesday night. Thomas was arrested recently after his car struck a parked truck and auto owned by W. W. Robinson, S. Pickaway street.

a pleasure to cook, delightful to eat

SINCE WE HAVE

The NEW Air Conditioned ICE Refrigerator

Left-overs now taste like special treats to the children and we have great appetites since we have the NEW style refrigerator. That preserves food as it should be. The butter tastes like butter, the bananas like bananas and the ham like ham in this wonderful NEW Air Conditioned NON-MECHANICAL ICE Refrigerator. There's no miracle how it works, it simply circulates FRESH MOIST air through the entire refrigerator. It lets all the juices, tastes and goodness stay right in the food. The onion, the butter, and the codfish, although uncovered, never fight. The New Air Conditioned NON-MECHANICAL ICE Refrigerator delivers you from disappointments, from those flat tasting meals and makes cooking a genuine pleasure. See it today.

LENS PLAN FOR EVENTS EACH MONTH

Continued from Page One

for the children.

The events were outlined at a meeting of the association directors. They were presented by Irvin W. Kinsey, manager of the J. C. Penney store.

Co-operation Urged

In a brief address before presenting the program, Mr. Kinsey stressed the importance of co-operation among merchants if the sales are to be successful. The purpose of the sales, he explained, is to bring customers to Circleville from the "no man's land" between this city and other nearby cities.

He advised merchants to plan their sales months in advance, select the proper seasonable items, buy carefully, know their merchandise and see that it is properly displayed. "Merchants write their own ticket for these events, and travel the distance they strive to reach," Mr. Kinsey said. "Forget competition in association business and be buddies. Our worst competition is that in other cities taking customers from the no man's land. The success of our organization compares to that of a football team. If we practice, exchange ideas and work hard we will have a winning organization."

The constitution and by-laws of the organization were read and offered concerning the terms of directors. It was suggested the directors elected next year serve one and two year terms so some members of the board will be carried over the following year. The suggestion was offered that directors who fail to attend two consecutive regular meetings be automatically discharged. The amendments will be worked out for further consideration at the next meeting.

Meetings Established

Under the organization rules one regular meeting will be held the first Tuesday of each month and directors will meet monthly. Membership dues will be \$5 annually.

SWEETBREADS A LA NAPOLI

Par boil one large sweet bread and cut in eight pieces. Cook in a hot frying pan with a small quantity of butter, adding enough beef extract to give the sweet bread a glazed appearance.

Cut bread in slices, shaped with a circular cutter three and one half inches in diameter and toast. Spread each piece with parmesan cheese seasoned with salt and pepper or paprika, moistened with two tablespoons heavy cream. Arrange each piece of sweet bread, salted and peppered on toast.

Put in individual covered dishes having two tablespoons cream in each. Cover sweetbread with sautéed mushrooms. Put on covers and bake in a moderate oven eight minutes.

Wins National Amateur Wildlife Photo Contest

HERE is the photograph which won first prize in the Amateur American Wildlife Photo conducted by Central Press Association and International News Photos in co-operation with the American Wildlife Institute of Washington, D. C. Picture shows a robin feeding a worm to her

young. The lucky and clever cameraman is William Maxwell, 145 Hudson street, New York City, and he is today \$200 richer because of his skill as a lens marksman. Amateur photographers from coast to coast participated in the contest. Tomorrow the second prize photo will be reproduced.

LENS INVENTED TO PHOTOGRAPH FLOATING DUST

New Camera May Prevent
Silicosis Fatalities
in Industry

NEW HAVEN, Conn. (UP)—A "dust camera" which will actually "shoot" dust in the air, and provide the only permanent record of dust which can be obtained today by scientists making studies in the dust contest of air in various industries, has been invented by Lawrence H. Ott, of Cleveland, a student in the Sloane Physics Laboratory at Yale University.

Ott worked two years with J. B. Ficklen, chemical engineer for the Travelers Insurance Company, in developing the apparatus which, it was said, would have prevented the recent silicosis tragedy in West Virginia, where several people died as the result of an overabundance of silica dust in the air.

The camera is extremely useful, Ott says, in industries using brick-making, quarrying and burinishing in their manufacturing process. "As soon as employees are required to keep the dust volume in the air down by legal statutes, such a method of counting dust as we have devised will be even more interesting and valuable," he asserts.

Dust Particles Counted

The camera takes a picture of the particles of dust in a very small amount of air. These particles are counted and the percentages of dust in cubic feet of air estimated, similar to the method now employed by physicians and physiologists to determine the number of blood cells in the human body.

The simple and light apparatus was fashioned and assembled by Ott in the machine shop of the Sloane Physics Laboratory. It consists of an upright shaft with a camera box on top and the lens within the tube to which are attached three cylindrical pipes. Each of these three pipes contains a flashlight bulb, such as is now used in commercial photography, wired for lighting.

Air Sample Taken

A rubber tube is attached to the upright metal chamber, and air is sucked into the interior through a rubber nozzle. When this sample of air, which contains the dust to be photographed, has been drawn into the testing chamber, it is left undisturbed for a period of from 30 to 60 seconds. The shutter of the camera then is opened and the photo-flashed is fired by a pocket battery—three bulbs being touched off simultaneously.

The present equipment weighs eight pounds but Ott is working to develop a dust camera with one bulb to weigh only five pounds. The Department of the Interior recently communicated with the Yale physicists for complete information about the new camera process.

YOUTH TALKS TOO MUCH

SAN JOSE, Cal. (UP)—Hobo hitch hikers are not always the best repositories of secret confidences. A youth offered a ride to one and confided to him he had stolen the car. The hobo tipped the next service station; the attendant telephoned the sheriff; the hobo disappeared, and the youth was arrested.

MORE JAPANESE TO MANCHUKUO

TOKYO—(UP)—A more intensive settlement program for Manchukuo and efforts to improve conditions in the fishing and farm villages at home are planned by leaders who seek to strengthen Japan's economic outlook.

According to reports from government sources, Japan will attempt to send 5,000 Japanese families to Manchukuo next year. An increased subsidy for each household will be granted.

Previous efforts at settlement in Manchukuo are said to have been satisfactory, although the Japanese traditionally are a home-loving people and not enthusiastic over colonization or emigration.

The home situation is causing concern, particularly because of a desire to cement national feeling after the Feb. 26 incident. Cabinet officials have expressed a desire to relieve the plight of agricultural and seacoast towns which

have been hit by adverse weather or scant crops.

As a result it has been decided to strengthen the social works investigation commission. Ketsunosuke Ushio, the home minister, said: "Stabilization of national life is badly needed. We must take into consideration the classes of people most particularly in need. The destitute condition of the farming and fishing villages has deep-rooted causes. Consideration of their grave condition has been neglected in the past but in the existing situation enforcement of social policies aimed at resuscitating these villages is urgently necessary."

Rotary Club Sea-Going

NEW YORK (UP)—The first has been established aboard the permanent sea-going Rotary Club new superliner Queen Mary. Meetings are held on every voyage eastbound and westbound and have so far been well attended by members from Rotary Clubs in the United States as well as from Great Britain.

The Nazi rule is softening up a bit. The solitary German sports writer who picked Louis to beat Schmeling will be cast out of his job but will not be shot.

Timber Wolf Successful As Messenger to Bank

SAN ANTONIO, Tex.—The answer to that oft-repeated question, "Who's afraid of the big bad wolf?" has been found at last. And the answer is, stick-up men had better be afraid of this big, bad wolf! He's the property of Richard Jones, proprietor of the Express club here and he answers to the name of Dan.

Dan is a full-blooded timber wolf, weighing 110 pounds of bone and muscle. And he's San Antonio's strangest bank messenger. Jones, hearing of the large number of persons robbed of their hard-earned money while carrying it to the bank, sought for some safe way to make the daily transfer. And he found the perfect answer in Dan, his pet timber wolf.

Bandits and Guns

Jones reasoned this way: A bandit, when he seeks to hold up a bank messenger with a gun, does it with the hope that the gun will so intimidate the messenger that there will be no shooting. If there is a shooting, chances are the stick-up man will have to flee without getting any loot.

Now that theory works all right on a human bank messenger who knows what a gun is, and what it can do. But on the other hand, menacing a wolf with a pistol would do little good. You'd have to use the gun in order to take the money away, and that's the last thing the average bandit cares to do.

And so it's no unusual sight to see Dan trotting through crowded San Antonio streets with a well-filled money bag held by his teeth, and Jones confidently bringing up the rear.

Born in Michigan

Dan's mother, a full-blooded timber wolf, was killed on a ranch in Michigan. The hunter who killed her found that she had left two pups, a male and a female and both were taken to the ranch. Later, Dan, the male, was given to Jones, who brought him to San Antonio to be reared in the city.

The female remained on the ranch, but finally the call of the wild became too strong, and one morning the leash that held her was broken and she was gone, never to return.

Dan, on the other hand, has seen little of the wild. Even his meat is cooked so that he will not get a taste of the natural food of

his ferocious ancestors. The animal looks much like a German Shepherd dog, except that he is much larger, and has a silver gray coat. Then, too, like all wolves, he prefers to suck his water instead of lapping it up, unless the container is shallow. "Just Tell Him"

Jones maintains that his pet is much more intelligent than a dog. "You don't have to train him to do anything," he claims, "you merely tell him. He understands." At night, when Jones retires, Dan comes into his room, and seats himself with his haunches on the floor and his forepaws on the bed, with his head between them. He keeps this position while Jones says his prayers, and at the word, "amen," trots to his own bed in another room.

Runs Errands

In the morning, Dan comes to Jones' bed and awakens him, and, when allowed to leave the house, trots to the butcher shop. The butcher knows him well, and knows his errand. He wraps up Dan's meat and hands it to him, and Dan carries it in his mouth back to his master who cooks it for him.

He is an affectionate and docile pet, but Jones believes that if ever someone tried to take away his money bag while he's acting as bank messenger, he would turn quickly into a big, bad wolf.

Retirement of Jim Farley from official life would, in some respects, be unfortunate. People who like to throw things have seldom had so genial a target.

O.A.R.P. Chairman

CONGRESSMAN Martin F. Smith, above, a Democrat from Hoquiam, Wash., is permanent chairman of the Townsend Old Age Revolving Pension convention in Cleveland. Smith, elected to congress in 1932, served on the rules committee at the Democratic national convention in Philadelphia.

Softball League Championship at Stake Tonight

EAGLES TANGLE WITH OILS FOR PLAYOFF TITLE

Callahan and Hegele to Pitch; Whaley Expected to Move to Shortstop

The championship of the first half of the city softball league is at stake tonight as the Fraternal Order of Eagles and Circleville Oils meet at 6:30 o'clock on the Southern Ohio Electric Co. field.

These teams are survivors of a playoff which included the Cities Service Oils until the team went out when beaten by the two remaining outfits.

Opposing pitchers will be Eddie Callahan for the Eagles and Bill Hegele for the Circleville Oils. Umpires are expected to be Sam Robinson at the plate and Byron Eby on the bases.

The Oils will have to juggle their lineup since the tragic death of their shortstop Martin Hickey. It is probable Manager Dick Robinson will move Second Baseman Shorty Whaley to short and Sherm Denny from right field to second base. Robinson, himself, would play right.

The probable batting orders are:

Eagles	Oils
Watson c	Denny 2b
Thompson c	Barnes c
Smith 1b	Terhune lf
Stevens ss	Reger c
McWalter 3b	Trimmer 1b
Hutchinson 2b	Whaley ss
Butler rf	Knings 3b
Davis 3b	Robinson rf
Callahan p	Hegele p

LOUIS INSISTS GERMAN'S HAND HIS ONLY DRUG

CHICAGO, July 15.—(UP)—Despite blanket denials by Joe Louis, his managers and the closest members of his family, a rumor that clouded the Louis-Schmeling fight persisted today with a private detective publishing an affidavit that the brown bomber was drugged 20 minutes before the bout.

In the face of such whole-hearted denials, the boxing world chose to look the other way when Sheridan A. Bruseaux, a dapper negro investigator, first revealed his sworn statement that Mrs. Eulalia Arnow Gaines, Louis' sister, admitted to him Joe had received a hypodermic shortly before the fight.

Bruseaux's apparently sincere insistence, however, demanded a hearing.

"Everything I said in that affidavit is true beyond any reasonable doubt," he said. "I have witnesses and other affidavits to prove it."

Lined against Bruseaux were: Joe Louis: "I had nothing done to me before the fight."

Mrs. Gaines: "I never said anything."

John Roxborough, co-manager of the young heavyweight: "That report is outrageous."

Mike Jacobs, who promoted the bout: "Louis told me by telephone the only drug he had was in the fourth round—Max Schmeling's right hand punches."

PEKINESE DOG VALUED AT \$250 DIES OF STROKE

Prince Remus of Vanguy, a valuable Pekinese dog owned by Mrs. G. G. Campbell, 342 E. Mound street, died Tuesday night from a heat stroke. The dog was conservatively valued at \$250.

This dog was the Indiana state fair winner in 1935.

RED CROSS SHOE TEAM BREAKS UP FOR SEASON

CHILLICOTHE, July 15.—Lack of financial assistance has resulted in the Red Cross Shoes baseball team disbanded for the summer. A number of good ball players, including Art Walker, slugging Circleville athlete, will be available for other teams.

BIRTHDAY FAILURE

CINCINNATI, July 15.—(UP)—Young Gene Schott's attempted birthday celebration at the expense of the Philadelphia Phillies here yesterday failed as the Cincinnati Reds dropped a 9 to 8 decision. Schott, whose 23rd birthday occurred yesterday, was the starting hurler against the Phillies, but was knocked from the box after he had given up five hits in three innings.

LINER CONVERTED INTO GYMNASIUM FOR U. S. STARS

NEW YORK, July 15.—(UP)—The U. S. Liner Manhattan, sailing for Germany today with America's Olympic team abroad, has been converted into a veritable floating gymnasium to keep Uncle Sam's athletes in top shape their eight day voyage.

Running tracks, jumping pits, boxing rings, swimming tank, target range and complete gymnasium equipment on the Manhattan, most of it furnished by the American Olympic committee, have changed the liner into as complete an athletic club as you'll find.

The only athletes unprovided for are the pole vaulters. The long run necessary to clear a bar at 14 feet would leave the landing pit so close to the rail that officials were skittish about taking chances of some high flyer vaulting right out into the Atlantic.

The entire tourist section of the boat was reserved for the U. S. delegation of some 450 athletes, coaches, trainers and officials. They have the run of the entire ship.

The athletes will be on a simple diet of beef, vegetables and potatoes until they get to Germany. Each one will be given a big red apple at 9 a. m. every day.

EAGLES TO PLAY FRIDAY IN CANAL WINCHESTER

The Eagles recreation team will go to Canal Winchester Friday to play a night game with the Canal Winchester nines. The game will start at 8:45 o'clock.

Sunday the club will meet the Halls Inn team of Columbus on the local field.

YESTERDAY'S HERO: Pepper Martin of the St. Louis Cardinals, whose second home run of the day, in the ninth with the bases loaded, kept his club virtually deadlocked for the league leadership.

Ohio State Grid Stars Toil on Roads, In Mills And Hope This is Year They "Lick the Irish"

About This And That In Many Sports

Superman; Now Bum

Many persons who saw the Schmeling-Louis fight pictures at the Cliftona theatre this week—(They're there again tonight)—are firm in the belief that Louis is washed up—Many of those same persons believed two months ago, and less than that, that Louis was a Superman; now they believe he is a bum—Apparently he is neither.

Reach New Heights?

Joe Louis will probably come back and may reach new heights as a batter—A pasting such as Schmeling plastered on the colored young man does not one any good; not even those who felt some of those right hands while sitting in the theatre—Bill Braucher, who writes for Central Press, believes the defeat is just what Louis needed to make him a truly great fighter, and that he had to get whipped one time or another so why not now?—Joe, Braucher says, was becoming just a little faltered.

Not a Glass Jaw

Schmeling didn't have a glass-jaw job in front of him. That hand bounced many times off Joe's jaw. Joe could have picked out a nice clean spot on the canvas and parked his tired body there any time after the fourth round. Baer did it. A lot of others have folded in the same way. But Joe took it until they turned out the lights. He's a fighter all right.

Those Other Champions

Plenty of fighters before Joe Louis came along have taken beatings early in their careers. Many have been knocked out and have become champions eventually. One fine day in 1917, the record of Jack Dempsey himself was punctured by a sleeper punch from Fireman Jim Flynn. Joe Louis absorbed dozens of stiffer punches than Jim Flynn ever could administer before he finally toppled. When Jim Corbett was 20 years old he was outpointed by a battler named Welch. He came back later to knock Welch out and still later to win the heavyweight title. Bob Fitzsimmons was only starting on the path to glory when he dropped the duke to a blighter named Jim Hall in Sydney. Mike Schreck gave Tommy Burns a generous pasting early in the Canadian clouter's career, but Tommy came on to take the title.

Jeffries Exception

Jim Jeffries is one of the exceptions. Jack Johnson, who is rated a greater fighter than Jeff, however, was outfought by Marvin Hart, and Johnson had been fighting for five years at the time and was rated pretty cute with his dukes. Jack Sharkey was iced by Romero Rojas several years before he got his chance at the championship. Max Schmeling was knocked out by Gypsy Daniels before he came to America the first time in quest of the crown he finally won.

COLUMBUS, July 15.—To keep fit through the summer so they'll be in good shape to "lick the Irish." That's the aim of every member of Ohio State university's football squad.

As life guards, ice men, camp counselors, switchboard operators, working for the state highway department, in summer

ST. PAUL GAINS AS BIRDS WIN

Milwaukee Drops Back as McGee and Potter Hurl Well

BY UNITED PRESS
In a long, up-and-down game under a blistering sun at St. Paul, the Saints won yesterday in the ninth inning from the seventh-place Toledo Mud Hens by the slender margin of 9 to 8 and went to the association lead a game ahead of the Milwaukee Brewers.

It was St. Paul's sixth straight victory. The game lasted two and a half hours. The Brewers, replaced at the top by the Saints, lost to Columbus' Red Birds 4 to 2, the Birds going ahead of Minneapolis to a third place spot.

The Birds pitchers McGee and Potter allowed only four hits. Pressnell gave up four runs in the first two innings in losing.

The Kansas City Blues stormed out of the dugout and scored nine times in innings number one and two, added three more scores later and downed the Indianapolis Indians 12 to 3. Niggeling was the winning hurler.

The last place Colonels of Louisville rapped Minneapolis' ace hurler, Tauscher, for 13 hits and beat the Millers 9 to 5. The Colonels rapped two homers, one of them coming from the bat of Brack in the fourth inning with the bases loaded.

HEAT TAKES TOLL IN STATE'S GAME FARM ACTIVITIES

COLUMBUS, July 15.—(UP)—The heat and drought is exacting a heavy toll at state game propagation farms, the state division of conservation reported here today.

Conservation Commissioner L. A. Woodruff said the Urbana game farm and pheasant hatchery was hard hit as 600 young birds had died on a recent day in addition to 41 hens.

"Hundreds more of pheasants will be lost unless relief comes quickly," Tom Nash, farm superintendent of the farm, reported.

The heat has affected ring-neck pheasants particularly while the Hungarian partridge population has fared well.

REED DEFENDING TITLE IN LOS ANGELES MATCH

CHILLICOTHE, July 15.—Curtis "Dutch" Reed, this city, 1935 Elks golf champion, shot an 80 in his first round of the 1936 tournament in Los Angeles. Reed expects to be hardpressed for the title.

AROLD BOWERS ACCEPTS STATE DEPARTMENT POST

LIAMSPORT SCHOOL LEADER RESIGN JOB

to Meet July 27 to Name Successor to Popular Official

Harold J. Bowers, superintendent of the Deer Creek township school, Williamsport, for the last seven years, will resign his position to accept the office of assistant superintendent of the Ohio Department of Education in charge of teachers' certificates.

Mr. Bowers' appointment to the state job was announced Wednesday by Dr. E. L. Bowers, director of the state department.

The Williamsport board of education, which Russell Wardell is president, will meet July 27 to act on Bowers' resignation. His successor will probably be named at that time.

The school man is a native of Adams township. He was principal of the high school there for three years. He obtained his bachelor of science degree from Ohio Northern University, Ada, and has done graduate work at Ohio State University. He started in the Ohio state summer school this year, but withdrew to start working in the state department where he is under the supervision of Mr. Frank Wilson, native of Adams township, who has headed the teachers' certificate department for 14 years.

Mr. Bowers will move from Williamsport soon, either to Ashville, where his mother, Mrs. Clara Bowers, resides, or to Columbus.

Mr. Bowers is the former Gladys Bowers, daughter of Mr. and Mrs. G. Peters, N. Court street. They have two children.

Mr. Bowers' retiring superintendent, who will be the next year in Williamsport, has always been a capable school man and his promotion is deserved. He has been active in Williamsport social, civic and church affairs.

PELONS GIVE UP BONDS

TOLETT, III. (UP)—Four hundred inmates of the Illinois State Penitentiary received their checks but were forced to turn them over to prison officials immediately. Convicts who keep their money on deposit rather than turn it over to their families, permitted to spend \$3 a week in the commissary.

Mainly About People

ONE MINUTE PULPIT

The eye that mocketh at his father, and despiseth to obey his mother, the rayens of the valley shall pick it out, and the young eagles shall eat it.—Proverbs 30:17.

Twin babies, one a boy and one a girl, were born Wednesday morning to Mr. and Mrs. Silas Griffith, Pearl Alley. The boy weighed six and one-half pounds and the girl one pound less.

Miss Jeanette Priest, of Greenfield, guest of her aunt, Mrs. Orrin Stout, E. High street, is ill after an attack of ptomaine poisoning.

Milady Beauty Salon has been moved two doors west to 12½ W. Main street.

The Wayne township Parent-

Teachers association will meet at the school house Friday, July 17, at 8 p. m. to make arrangements for a fish fry.

An all-day fish fry will be sponsored by the Atlanta Methodist church at the school grounds, Thursday, July 23. The ladies of the church will be in charge.

A son was born Wednesday morning to Mr. and Mrs. Paul Winner, Logan street.

Harry Saul, convicted in Pickaway county of automobile theft, will be paroled from the Mansfield reformatory Oct. 1. He must not return to this county, but must go to West Virginia.

Mr. and Mrs. James Humphreys, 350 Walnut street, are parents of a boy born Wednesday morning.

Miss Nellie Massey, Muncie, Ind., will conduct a cunning demonstration in the Jackson township school building, Monday, July 20.

WELSH, VETERAN FIREMAN, DEAD

Man, 52 Years in Service, Dies After Operation

COLUMBUS, July 15.—(UP)—John A. "Jack" Welsh, 74, who resigned a week ago as assistant fire chief here, died last night in a hospital following an operation. He had been connected with the fire department for 52 years.

20, at 1:30 p. m. The demonstration is being conducted for all members of 4-H clubs and their mothers.

LISBON, Portugal, July 15.—(UP)—German airplane service between Lisbon and New York via the Azores, long planned, will be started soon.

THIRTY-TWO 4H GROUPS FORMED FOR YEAR WORK

Thirty-two 4-H clubs have been organized in Pickaway county this year with an enrollment of 359. Many members are carrying two projects, making a total of 415 separate projects.

The enrollment includes 176 girls in clothing clubs, 125 in campfire cooking, 23 in food clubs, 82 boys in livestock and crop projects, a few in garden and engineering projects, and 18 in the club.

All members enrolled in the clubs, leaders and their assistant are eligible to attend the 4-H club camp to be held at Camp Clifton, Yellow Springs, Ohio, August 3 to 8. The cost of the camp is \$4.50. Those who desire to attend the camp have been requested to notify the county agent by Wednesday, July 22.

Pickaway clubs are to broadcast a program over station WOSU, Columbus, Aug. 3 at 8 p. m. The broadcast is to last 25 minutes. The clubs have been notified to send the names of their representatives in the annual health contest to the Farm Bureau office by August 1. A county health examination will be held during August and the winners will compete in the contest at the Ohio State fair.

Two Pickaway county demonstration teams will go to the state fair with all expenses paid. Demonstration "tryouts" to determine the teams to represent Pickaway county will be held Wednesday, Aug. 12 at 1:30 p. m.

All entries to the state fair must be listed in the county office before Aug. 14.

SPRINTER CAPTURES DEER HONOLULU (UP)—Albert Y. Inaba, school principal on the island of Molokai, 60 miles southwest of here, made a bid for the American Olympic track squad. While faculty members watched, Inaba chased a wild deer from the school yard and caught it after a quarter mile sprint.

Mystery Death

POLICE of Sanford, Maine, fished the body of Lawrence Cordeau, 38 (above), from Loon Lake and found his jaw had been fractured with a single blow. Cordeau disappeared while on a moonlight fishing trip.

MERCURY DROPS

Continued from Page One

small grains that have burned in more than five weeks of drought might have boosted the property damage far beyond \$500,000,000.

The drought which began late in May in the Dakotas appeared to be definitely broken except in the states where relief was promised today. The heat wave, described by weather bureau officials as the most severe in the history of the north central states, shattered dozens of records in its climatic stages.

Some of the record-breaking temperatures yesterday included: 112 degrees at Rockford and Peoria, Ill.; 111 at Joliet and Ottawawa, Ill.; and Logansport and Lafayette, Ind.; 110.8 at Davenport, Ia., and Moline, Ill. Indianapolis, Ind., had 106.1, La Crosse, Wis., 104. Before the rains fell late yesterday and last night, Detroit thermometers recorded 193 and St. Paul, Minn., 104.

ESHELMAN FIRM GOES TO COURT AGAINST ORDER

Milling Company Seeks to Have Double-Rate Decision Suspended

THREE JUDGES ASKED

Change in Base Point Cited as Resulting in Extra Expenses

The John W. Eshelman and Sons Milling Co., Circleville, started action Tuesday in federal court, Columbus, to suspend an interstate commerce commission order increasing tariff for interstate movement of grains. The order becomes effective Sunday. The petition asks an injunction to stay and suspend the order. A three-judge court to hear the litigation is asked. The proposed tariff increase was authorized May 28 with Columbus as a base point instead of Cincinnati for the rates. The Eshelman company charges the order will cause it to pay two local rates instead of a through rate as in effect formerly.

AUSTRALIA AIDS TRADE OF JAPAN

CANBERRA (UP)—The recent action of President Roosevelt in abolishing all advantages which Australia received under former trade treaties with the United States, has intensified the trade war between the two countries, according to government sources here.

While Australia's original action imposing an importing license system and reducing the quota of articles that could be imported from the United States was instituted to reduce Australia's unfavorable trade balance with the United States, a certain amount of bitterness, it is declared, now has been injected into the fight by America's latest step.

According to official sources, Japan probably will gain as a result.

Despite the fact that under the new importing license system, the rates of duty on rayon have been increased slightly, it is asserted that orders will be diverted to Japan rather than to the United States.

Japan Not Restricted There will be no restriction of any kind imposed on Japanese rayon, as Japan is a good customer of Australia. It is admitted that rayon was placed on the license list for the sole purpose of shutting out the American product, as the United States does not purchase sufficient Australian products, it is argued here.

As regards the importation of automobile units from the United States and Canada, the number has been limited to 50,000 annually, of which 25,000 will come from the United States and 23,000 from Canada. The principles on which the licensing system is to be operated against poor customer countries, it is said, are the units will be restricted to 100 per cent of the number admitted for the year ending April 30, 1936.

As regards typewriters, the li-

cense system has limited the number to 75 per cent of the quantity formerly imported. This will affect American importations especially. License for all other goods on

the prohibited list will be refused outright, except in the case of national necessity or where employment in Australia is involved. The object is not to permit any of these goods to come into Aus-

tralia from the United States and other non-buyers of Australian goods.

Another of the most pointed examples of the fight against American products is that relating to

fashion goods. They can only be brought into Australia now as samples and even these must not be sold here. However, they can be used by local manufacturers in producing their own goods. This

provision is expected to upset the present system of many of the large Australian stores who maintain buyers in America. It will have the effect, it is believed of diverting this trade to

France, which ranks as another good customer country.

Officers Without Quarters OAK HARBOR, O. (UP)—Because of a 50 per cent increase

over last year in the cavalry troop officers at the Erie Proving Ground, the regimental range, now will be housed in rooms in Oak Harbor, seven miles away.

South Leading Belgians

LEON DEGRELLE.—A one-year old son of a 25-year-old newspaper editor competed in the recent Belgian elections with such personal success that 21 of his candidates were elected to the chamber of deputies.

As a result, the historical array of conservative Belgium's three parties, the Socialists, Catholics and Liberals, has received a severe jolt by the "Rexists", as the new group calls itself.

Leader of this youthful party, and one may say its founder, is young Leon Degrelle who hails from Bouillon in the south of Belgium.

Organizer

Gifted with a surprising talent for organization, Degrelle created the movement of "Rexism" without any means other than his magnetic personality and the clever tactics of his newspaper "Rex".

A graduate of the University of Louvain, Degrelle himself was a zealous member of the Catholic party until 1934. That year, however, he began to expose—in the new weekly Rex—financial irregularities within the Catholic as well as other parties.

The cry for a general cleansing of Belgium's political life raised by "Rex" found its echo among tens of thousands of people. During the summer of 1935 Degrelle, who until then still had remained loyal to his party, seceded and founded his "Rexist" movement which attracted tremendous following among the peasants, small shopkeepers, and sections of the white collar class.

The name of "Rex" refers to Christ, the King of Kings. "Rex vaders"—Christ will win—is the slogan of the party. Its symbol is the broom with which Mr. Degrelle hopes to clean political life.

But behind Degrelle's demands for honest government, protection of the small shopkeepers against the big department stores and of the small farmer against the big landowners, looms the tendency of fascism. He also proposes to reduce the number of deputies to half and to deprive the chamber of all rights except passing on the budget. He further proposes that all married women should be deprived of jobs.

Another Hitler?

Due to his anti-parliamentary program, Degrelle has been nicknamed the "Baby Hitler" by his adversaries. He himself has repeatedly admitted that his party would use force if it could not have its way otherwise.

As a personality, Degrelle exercises a magnetic influence upon his followers. An excellent orator, and carried wide and far, he attended as many as 10 mass meetings during the recent election. Married and good looking, and of athletic build, Belgium's Baby Hitler may well become one of the leading political figures in his country's history.

FELON EXPECTS LUCK TO CHANGE ON FATEFUL DAY

HUNTSVILLE, Tex. (UP)—Bill Doupe, inmate of the Texas penitentiary thinks he will get clemency next June 25 "because something always happens to me on that date."

Thus far, June 24 has been entirely unlucky for the former British subject.

The record is:

June 24, 1936—Notified that the mitt in Lubbock, Tex., for which Doupe was indicted.

June 24, 1933—Doupe re-entered the United States illegally; was arrested by immigration officers and turned over to Lubbock County sheriff, given 10-year sentence.

June 24, 1934—Broke jail at Lubbock.

June 24, 1935—Arrested in Ore-

NEW BATHTUBS GO STREAMLINED

BUFFALO, N. Y. (UP)—The first streamlined bathtub went on display at the opening of the annual National Plumbing convention on June 22.

The display was designed to emphasize the change in the psychology of the plumbing business.

Whereas the bathroom used to be a room to be passed up when showing the house, the plumbers hope that the new bathtub of citric color with other streamlined bathroom fixtures to match will make this room a definite unit in home designing.

The new type tub is equipped with a comfortable side seat as an aid in bathing and dressing. It also introduces a safety feature intended to reduce the annual toll of injuries caused by falls in old-style tubs. Plumbers have statistics to show that in 1935, 120,000 persons were hurt by falls in bathtubs.

The tub was designed by Henry Dreyfuss, who also has designed trains, airplane interiors and industrial objects.

Dreyfuss used a band and line treatment to give the fixture a mild modernistic effect, but kept utilitarianism in mind to the extent of making the tub more roomy.

Gone are the words "hot" and "cold" from the faucets the builder found that just as red and green long ago were proved to be the best colors for traffic signals, red and blue are the colors which, psychologically speaking are most closely associated with heat, and cold. So narrow, artistic lines of red and blue designate which faucet is which.

Gon. Later tried on charges of breaking jail and given 15 years. Case appealed.

June 24, 1936—Notified that the 15 years sentence had been upheld.

Doupe, an aviator with the Canadian forces during the World War, was decorated twice for bravery.

INDIAN CULTURE 700 YEARS OLD

Norman, Okla. (UP)—Pit-house village sites unearthed in the Oklahoma panhandle are regarded by scientists today as an indication that this state is the cradle of the Great Plains Indian Culture.

Dr. Forest E. Clements, head of the University of Oklahoma department of anthropology, is convinced that Oklahoma holds a strategic position in the field of plains archeology.

"Mysteries of prehistoric tribes in the Great Plains may some day be revealed in the rich archeological field of the panhandle," Dr. Clements said.

"Recent excavations indicate that at least 700 years ago this section was the central point for the northern sweep of ancient tribal cultures from both the west and east."

Links May Be Joined

Predicting that state research workers might trace the origin of prehistoric cultures, Dr. Clements said:

"The similarity of the panhandle pit-houses, pottery designs, bone tools and clay pipes to those discovered in the northern plains may solve many problems for archeologists."

The pit-house vogue spread from the southwest to Oklahoma and thence to the north, according to the conclusions of observers. Rectangular in shape, the houses have an average size of 12 by 15 feet, with a floor about three feet below the original surface of the ground.

Fireplace in Center

At the center of the pit was built a fireplace surrounded by 4 posts which were connected at the top by logs. Rafter poles covered with clay and brush were suspended from the timber pieces.

Discovery of chips or shreds of black-on-white pottery was seen as an indication that this Indian culture was about 700 years old.

"This particular type of pottery was made in the Pecos valley of New Mexico in the 13th century," Dr. Clements said. He explained that the method of dating was based on counting annual growth rings on tree trunk beams found along with pottery ruins.

INDIANS REVOKE ANCIENT RITUAL IN DEATH CRASH

MENASHA, Wis. (UP)—An old Indian ritual was invoked by tribesmen here for victims of the modern motor car.

When Mrs. Andrew Swamp and Grafton King, both Indians, and Lawrence Haas, were killed in a collision of three automobiles, ancient Indian ceremonies were held so that "the spirits of the dead might be set at peace."

After the accident, relatives and friends of Mrs. Swamp and King assembled at the victim's homes. The Indians believe that a dead tribesman's spirit remains in his home for 10 days after his death.

Gets Treasure

TOGETHER with her husband, Mrs. Louis Voss was named beneficiary of the \$350,000 estate left by the woman-bathing Ivers brothers of Tipton, Ia. More than \$200,000 of the fortune was found buried on the farm where the brothers lived. Eighteen other relatives of the Ivers are seeking to break the will.

and that if the ancient rituals are not invoked, the dead Indian is doomed to eternal suffering.

The victims' favorite food was placed before a vacant chair in each home. The first person entering after the tenth day, was asked to eat the food. If he declined, it was left hidden in a flower bed and precautions taken go that no animal could reach it. Prayers were recited throughout the day.

The day before the accident, relatives had met at King's home to sing. A dog, owned by his sister, turned over on its back and pointed its feet in the air. King remarked it was a bad Indian omen—that it meant a sudden death in the family. The next day he was killed.

OHIO MUSEUM'S PIONEER RELICS WIDELY VIEWED

UPPER SANDUSKY, O. (UP)

A museum which began in 1929 as an exhibit of American pioneer relics, has grown to attract such wide interest that its visitors' book bears names from every state and many from foreign countries.

The Wyandot National Museum was founded on the first floor of Upper Sandusky's courthouse, through the efforts of Dr. F. H. Lang, who contributed his own personal collection of considerable value.

Founded primarily as a pioneer museum, the collection has among other pieces, a powder horn carried by Daniel Boone on Battle Island on his last trip there in 1776.

Varied contributions to the museum, however, have widened its scope to include such relics as a hat worn at George Washington's inauguration, the first O'Reilly telegraph, a 2,000-year-old Japanese maiming ring, the first Chicago typewriter, and a silver teapot once owned by George Washington.

The museum's most valuable

piece is a Martin Luther translation of the Bible, printed at Zurich Switzerland, in 1527.

The largest object in the museum is a Stanly Steamer, built in 1895. Boyd E. Caylor is the present curator of the museum.

STYLISTS OFFER AUTO WARDROBE IN NEW DESIGNS

MONTREAL (UP)—Turning attention to the average feminine vacationist, stylists this season have evolved assembled wardrobes for summer motor trips.

Answering the needs of feminine visitors lured by highways in this French Canadian province, style arbiters here are introducing the automobile vacation wardrobe. One featured during a fashion show was built around a color scheme of brown, beige and melon pink. The nucleus of the wardrobe was a suit of featherweight tweed accompanied by an extra divided skirt of brown flannel for golf and hiking. Two sweaters in harmonizing hues and three hand-made silk crepe blouses completed this outfit.

Two play suits, both having separate skirts were included, one be-

ing of beige silk crash, a fabric that is almost wrinkle proof, and the other of melon pink in non-crushable linen. Divested of skirts these outfits had the double virtue of being ideal for tennis and canoeing and of being wearable beneath the suit.

A dinner dress of beige cotton lace can be converted into a formal evening gown by removing the matching jacket and a printed sheer in tones of tan and melon pink with detachable cape provided an ensemble suitable for informal dining and semi-dress occasions.

Shoes for the wardrobe included a pair of tan leather oxfords with medium heels, a pair of brown faile slippers for afternoon and evening wear, and a pair of tan and brown gabardine shoes for sports.

The hat problem was solved by a tan sports felt, a stitched silk chapeau in melon pink and one of the chic halo type caps of braided brown faile, with net crown and brief nose veil.

The New York courts have granted allowance of \$4,500 for a month's vacation for Gloria Morgan Vanderbilt and if the poor little rich girl has as much fun as an under-provileged child sent away for a week at camp she'll be a lucky youngster indeed.

VOLCANO TOUR BY UNIVERSITY TO SPAN OCEAN

Survey Will Extend From
California to Japan and
New Zealand

BERKELEY, Cal., (UP)—A complete survey of the entire Pacific region of volcanoes will be made this year by the University of California in an effort to determine there may have with the dying out Cascade range in northern California.

Dr. Howell Williams, associate professor of geology at the University, will start on his tour of the Pacific volcanoes in September. This will cover New Zealand, the Dutch East Indies, Japan and probably the Hawaiian craters.

Dr. Williams expects to obtain his most important information in Java, where the Dutch East Indies Volcanological Survey maintains a force of experts to warn natives of impending eruptions. These usually can be foretold by the drying up springs increasing temperatures on volcanoes and the other signs distinguishable to the scientist.

To New Zealand, Too
Another volcano to be studied is that of Mount Tarawera on North Island, New Zealand, which last erupted in 1886. In this disturbance the world-famous red terraces and what was credited with having been the world's largest geyser on the slopes of the volcano, were wiped out.

From there Dr. Williams will go to Japan, for a study of the active craters there and probably will complete his investigation with a tour of those in the Hawaiian islands.

Immediately upon his return he will concentrate upon a study of the Cascade range of craters in northern California and southern Oregon. While this region has been classified definitely as one of dying volcanic activity, Dr. Williams admits the possibility of still further disturbances there.

Accurate Conclusion Expected
He believes that his researches throughout the entire Pacific volcanic region of volcanoes will enable him to arrive at definite conclusions.

For some time after the Lassen Peak eruptions in 1914 and 1915, the government maintained an observation station there, but it has been closed.

The University of California, however is continuing the work and recently made a close examination of the rock and natural formations in the region in order to check accurately any changes that another disturbance might bring about.

BOUNTY RACKET DEVELOPS FROM WAR ON SNAKES

WAUKON, Ia. (UP)—The county commissioners of Alameda County are puzzled to know just how much of a rattlesnake can be cut off and permit the snake to remain alive.

Their interest is due to the offer of a \$1 bounty for each rattler killed in the county. When the offer was made, only the rattles were required as proof of the claim to the bounty.

The plan failed to result in the extermination of the snakes, county supervisors said, because the snake hunters learned that they could cut off the rattles, turn the snake loose and so assure themselves of later profits.

The bounty was cut to 50 cents, but the rattlesnake population of the county increased.

Last year the supervisors sought to curb the 'snake racket' by requiring that an inch of the tail be attached to the rattles. Even this proved a failure since snakes were found to live quite successfully without the short inch of tail.

This year the requirement was stepped up to four inches of tail attached to the rattles.

If this plan doesn't work, the supervisors have indicated they may start at the other end of the snake and require the head to establish the county claim.

RED NAILS BAT GIRL WORKERS IN CAPE TOWN

CAPE TOWN, (UP)—Business men in Cape Town have started a war against scarlet fingernails, and several advertisements for office assistants recently have specified that "no colored finger-nailed girls need apply."

They declare that brilliantly daubed finger-nails distract their attention when they are dictating letters, and that they are in bad taste.

They have received unexpected support from the Cape Town medical fraternity. Three women have had to be treated during recent months for finger trouble, and in each case poisoning by cheap finger enamel was suspected.

Town Threatened

MERCHANTS of Prophetstown, Ill., dug down into their pockets for \$1,000 to pay an extortionist who sent a note to Mayor George S. Brydla, above, threatening to dynamite the little city's business district. The extortion letter was signed "Lamorra Society" and bore a triangular symbol at its head. Department of justice agents investigated the case.

TRAPPERS LOSE TO FUR FIRMS

JUNEAU Alaska (UP)—Alaska has developed a new industry one which threatens to halt means of earning a living for hardy trappers of the north.

The spread of fur-farming in the territory has forced many grizzled veterans to give up trapping. Many have spent 30 years or more in the wilds back of Eagle, Circle and other interior villages, coming out only rarely to buy supplies.

Lorin T. Oldroyd, director of the University of Alaska extension division, said fur farming is now one of the fastest growing activities in the north and results obtained by raising fox, mink and other animals far surpass yield of trappers.

"The selection of proper breeders and more regular feeding is resulting in better pelts than the

SCOTLAND YARD EYES 'CON' MEN

LONDON (UP)—With the London season beginning and overseas visitors flocking in, Special Branch detectives at the ports are keeping a close watch upon arriving Australian liners.

For Australia is still regarded as the home of "con" men, and, with returning prosperity making London a happy hunting ground for these wanderers Scotland Yard is redoubling its vigilance. The order has gone out to the port detectives to keep a special lookout for known or suspected confidence tricksters.

Cooperation between Scotland Yard and overseas police forces has been reduced to a fine art, and no "con" man can sail from Sydney, Cape Town, Quebec or New York without the news flashing across the world. Lirer captains also tip off the police about suspicious passengers who seem too eager to draw their chance acquaintances into smoking room card games.

The Special Branch detectives are making it more and more difficult for "con men" to sneak in, and even crooks who manage to slip through the nets at the ports are likely to have a surprise visit at their hotel by a detective who gives them some good advice about their stay and the advisability of an early departure.

Special plans have been made by "The Yard" to cope with this problem during next year, when a record influx of visitors is expected for the Coronation of King Edward.

Meanwhile Australian "con men" are having as tough a time across the Channel, two of them having been imprisoned and a third having been sentenced.

trappers can ever hope to get." Oldroyd said "Production of finer pelts is boosting cost of furs to the betterment of the industry.

Oldroyd predicted that within a few years fur-farmers will stabilize the Alaska fur industry to such an extent the trapping season will have slight effect on it.

Fur farms are rapidly springing up throughout Southeastern Alaska, while fox islands in the Aleutian Islands have been leased by the Alaska Game Commission for years to raisers of domestic fur.

WATCH DOG ON PAYROLL

TOLEDO (UP)—The payroll of the Toledo Art Museum carries the name of a watchman who has a special cook. He is Ranger, a huge German police dog, who stands guard at night.

PENNEY'S J. C. PENNEY COMPANY, Incorporated

MURPHY'S DECISION INDICATES CLOSE MICHIGAN FIGHT

MURPHY'S DECISION INDICATES CLOSE MICHIGAN FIGHT

Former Detroit Mayor Drafted to Oppose Gov. Fitzgerald

DETROIT, — One of the most hectic election battles in the history of Michigan is forecast as a result of the announcement that Frank Murphy will be a Democratic candidate for governor of this traditionally rock-ribbed Republican state.

The 43-year-old former Detroit mayor, and, more recently, high commissioner of the Philippines, is the second nationally prominent figure to sacrifice his own wishes to the needs of the Democratic national party.

In announcing the would be a candidate for the Democratic nomination for governor Murphy may relinquish an \$18,000-a-year job as high commissioner of the islands for a \$5,000-a-year salary as governor.

Like Lehman

His case is almost a political parallel to that of Gov. Herbert H. Lehman's in New York. Governor Lehman had announced he would not run for a third term as chief executive of the Empire State, but national Democratic leaders feared the party might lose politically important New York if Lehman did not run.

Finally, after the president's urgent personal appeal, Lehman agreed to run again this fall and bolster the state Democratic ticket there to woo votes to the national state.

President Roosevelt again demonstrated his ability as a "persuader" when Murphy agreed to toss his hat into the political ring here. His decision came after several talks with the president.

Murphy is popular in Michigan and his decision to head the state ticket is expected to attract many votes to Roosevelt in the November election. The Democratic party here was hard put for a candidate to oppose Gov. Frank D. Fitzgerald, one of the handful of Republican governors who has held office during the Roosevelt regime.

His Reward

Murphy, however, was equally as popular in the Philippines where he had been sent after he stumped the state for Roosevelt in the 1932 election and had won many votes for the New Deal. As a reward, the president gave him the \$18,000-a-year post as governor-general of the Philippines. When the commonwealth government came into existence Murphy remained as high commissioner. He made good. Even while he was considering his resignation as high commissioner in order that he might run for governor, many protests from influential leaders in the islands were forwarded to the president.

Murphy managed to win the confidence of both native Filipino leaders and American interests there. Previously, many governor generals had played the factions against each other.

Murphy, red-headed and energetic, had gone to the islands in May of 1933. He had been elected mayor of Detroit in 1930 and resigned that post to go to the Philippines.

When Murphy reached a decision to run for governor, he gave his resignation as high commissioner of the Philippines to President Roosevelt. The latter, indicates he will not accept it but, rather, give Murphy a leave of absence without pay for two months, beginning Sept. 5, so that Murphy may remain here for the political campaign.

Holding Resignation
If Murphy is elected governor, the president is expected to accept the resignation immediately. If he is defeated, he may be sent back to the Philippines.

Murphy, prior to becoming the

U. S. AUTHORITY EXTENDED OVER MIGRANT BIRDS

WASHINGTON (UP)—A bill passed by congress during the last session and approved by President Roosevelt on June 20 will reinforce and extend federal authority over migratory birds, the Biological Survey announces.

The new law is designed to make effective in this country a convention between the United States and Mexico for protection of migratory birds and animals. Ratification of the new law by Mexico is yet to follow, and it will take effect upon proclamation of the exchange of ratifications.

Federal authority over migratory birds heretofore had depended on the Migratory Bird Treaty with Great Britain. The new law reinforces this authority by providing for a dual basis for the federal regulations conserving birds, mammals and other animals.

FRANK MURPHY

Democratic gubernatorial candidate, must submit his name to the Michigan voters in the primaries. The primaries in this state are held in September. His most formidable political opponent for the nomination is George Welsh, former Republican state lieutenant governor, who recently turned Democrat. Welsh has been endorsed by former Gov. William Comstock "Old Guard" Democrat.

No one is believed to stand a chance against Murphy, however, and his nomination in the primaries is believed assured. In much the same manner, Governor Fitzgerald, the incumbent, is expected to be renominated as the Republican nominee for governor.

After the primary votes are counted, therefore, it is expected

to be Murphy vs. Fitzgerald for governor of Michigan.

Michigan is the scene of still another battle by a personality. U. S. Senator James Couzens, independent Republican, is a candidate for renomination in the Republican primaries — although he could have had the Democratic nomination.

Couzens' Fight

Senator Couzens' greatest foe in the primaries will be former Governor Wilbert M. Brucker, who asserts that Couzens is more of a New Deal supporter than a Republican. Couzens is popular with labor and thousands of liberals.

The Michigan senator has given away millions of dollars to charity, once \$10,000,000 in one lump sum, and is believed assured of renomination. However, there are a few who are riding with Brucker, mainly because Brucker, in his own words "is the luckiest man alive" in politics.

Democrats have yet to pick a man to run as their "official" candidate for the U. S. Senate. Murphy has declared that he prefers either Frank A. Picard or Saginaw, former chairman of the state liquor control commission, or Representative Prentiss Brown of St. Ignace as his running mate there. There are two or three candidates already in the field but they are not expected to count many votes unless they are "adopted" by Murphy.

Radio Priest Friendly?

Most of the interest will be centered on Murphy, mainly because of the part he already has played in the Philippines and in national political affairs. He is a Catholic and a close friend of the Rev. Charles E. Coughlin, the Michigan radio priest, who helped start the recent third party movement.

Father Coughlin, although bitter against the Roosevelt administration for failing to adopt policies of the National Union for Social Justice, is at least expected to endorse Murphy personally if not as a Democratic candidate.

Some sections of Michigan are believed strongly Townsendite and "Coughlinite". Their strength lies mainly among Democratic voters, however, and if they joined in the third party movement it would probably pull many more votes away from the Democrats than it would from the Republicans. Murphy's candidacy, therefore, also was believed designed to meet any bolt of Democratic voters to the third party.

The cases of Murphy and Couzens also offer somewhat of a parallel. Both remain unusually popular, whatever political party they represent.

May Obtain Job

LINDSAY CARTER WARREN, above, 47-year-old Democratic congressman from North Carolina and watchdog of house expenditures as chairman of the committee on accounts, may become the new comptroller general. Warren reportedly has been offered the job by President Roosevelt. This important position was left open when the 15-year term of Comptroller John R. McCarl expired on June 30.

SOVIET TO JOIN PACIFIC PARLEY

SAN FRANCISCO (UP)—The new situation created in the Far East by Japan's continued penetration into China will be one of the principal problems to be taken up at the next biennial meeting of the Institute of Pacific Relations. The meeting is scheduled for Aug. 15 to 29 in the Yosemite National Park. Nations participating are already preparing their delegations, which will be composed of 25 to 35 members each.

With the exception of Mexico, every country bordering on the Pacific or with vital Pacific interests will be represented. These are China, Japan, the Philippines, Hawaii, Canada, Great Britain, Soviet Russia and the United States.

Soviet To Be Represented
The meeting, according to officials of the Institute, will be of special importance, in view of the fact that it will be the first time the Soviet Union has attended. Thus, discussions on the situation created by the conflicting tendencies of Japan, China and Russia in the Far East are likely to be in order.

While most delegations will be composed of members sent from their respective countries, China will be represented by Dr. N. Wing Mah, professor of political science at the University of California.

As in the past, the League of Nations will send observers to follow discussions.

Editor in U. S. Delegation
The American delegation will include Chester Rowell, editor of

the San Francisco Chronicle, president of the California Association for the League of Nations and authority on Far Eastern affairs. Besides the present Japanese-Chinese-Russian situation in the Far East, three other phases of Pacific problems will be attacked. These are the economic conditions of countries bordering on the Pacific; political relations of these countries, and cultural phases of the Orient as brought into contact with the culture of the West.

The Institute was founded following the Bolshevik revolution and has held biennial meetings ever since in an effort to improve the relations of the countries bordering on the Pacific.

ORGAN WHEEZES TUNES POPULAR 150 YEARS AGO

MONTREAL, (UP)—A barrel organ that King George III of England presented as a gift to Big Chief Thayendanege, ruler of the six Moawk nations, a century and a half ago, has been placed on display in the Chateau-de-Ramezzy here.

One of the rare objects of historic interest in North America, the organ is the center of a

friendly controversy between the Antiquarian Society of Montreal and the Historical Society of Brantford, which is seeking to obtain the instrument for the archives of the latter city.

Highly educated and a visitor to the Old World on several occasions, Chief Thayendanege in later life discarded his Indian title to become known as Joseph Brant, for whom the city of Brantford was named.

Resembling a modern humidifier more than a musical instru-

ment, the organ has the titles of 32 ancient songs on its cover, the majority of which have been forgotten for more than a century. Although the organ can be played with only slight musical satisfaction, remnants of the old tunes still can be distinguished. Among the songs that tinkle quaveringly from the venerable instrument when the hand bellows are pumped are "When William at Eve Meets Me", "Sweet Polly of Plymouth" and "The Topsail Shivers in the Wind".

Only a Youngster

BUT, ALREADY, WHAT A REPUTATION!

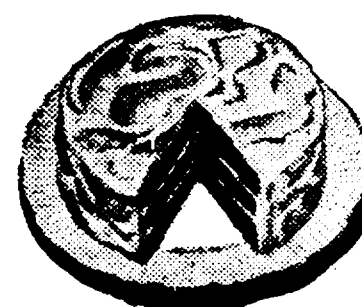

NO, we're not talking about the youngster in the picture --- we're talking about Honey Boy Bread! The little fellow up above is merely to attract your attention and also to impress on you that Honey Boy Bread is only a few months old. Honey Boy Bread is just a youngster — he came on the market only last November — but has grown by leaps and bounds since that time.

TODAY — Everyday — more and more housewives in Circleville and throughout Pickaway county are asking for Honey Boy Bread. It is fast becoming the favorite of everyone and it will continue to be the favored bread... because of its rich nourishment, fine ingredients, its homelike appetizing flavor and its tempting freshness. It is properly and thoroughly baked by skilled craftsmen in a spot-less, modern bakery.

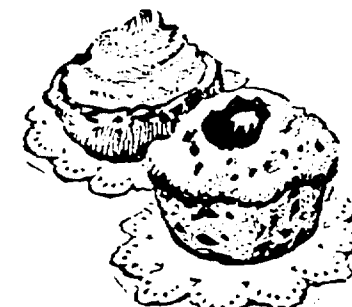

Have YOU tried Honey Boy Bread?

AT ALL C. & F. STORES

FOLLOWING THE G-MEN

A Series Telling How They Operate

Editors: This is the first of a series of three articles on the G-men and their scope of activity.

WASHINGTON—J. Edgar Hoover's staff of G-men have done so thorough a job of killing or incarcerating the nation's public enemies that the supply practically is exhausted and it becomes necessary for the justice department to invent some new activity for the G-folk to keep them busy.

Paraphrasing Chief Hoover of the department's investigational bureau does not like to have criminals referred to as "public enemies". He says it tends to glorify them. He prefers the term "rats".

Be that as it may, the bill recently introduced in congress, simultaneously by Senator Henry F. Ashurst in the upper chamber and by Representative Hatton W. Summers in the lower one, relating to the G-agents' activities, was intended by Attorney General Homer S. Cummings to broaden his investigators' field; not to shrink it, as it erroneously has been interpreted. This on the authority of the attorney general himself. As he inspired the measure presumably he knows what he is talking about.

MORE CO-OPERATION

Briefly, the bill's purpose is to empower the G-staff, after having suppressed crime, as Cummings says they have, to prevent any more of it.

A closer partnership of the sort, by the way, was one of the recommendations of the Wickersham anti-crime commission, in President Hoover's administration.

G-PLANES NEXT

The G-bureau, being a radical departure from America's time-honored methods of policing, still is in process of evolution.

However, it reasonably may be assumed that it will continue to grow.

Automobiles, streaking across state lines, created the first one. Now an air adjunct seems a necessity.

Already the G-men have used planes extensively, but, as yet, wings have not formally been placed at the bureau's disposal. It is certain that they will be, soon.

STATE LINES

The day of regional policing manifestly is passing. The tendency is toward a force which will be able to operate all over the United States and territorial possessions.

Not so long ago the constable of a rural justice of the peace blithely pursued a suspect to an arbitrary boundary line. There the constable sat down and the chase was taken up by a sheriff or municipal police officer. If the fugitive was lucky, he beat justice to the county or municipal limit and then state police took up the hunt.

Finally, if the quarry could scramble across a state line he stood a chance of finding at least temporary sanctuary: he had to be extradited.

DIFFERENT NOW

A great deal of this has been changed with the extension of

Assistant Attorney General Joseph B. Keenan

Keenan, who has charge of prosecutions in the justice department, has had a splendid record.

power to the federal bureau of investigation.

A fugitive has a long race ahead of him, to an international boundary.

Generally, before he gets there, he lands in a United States prison, in the chair or is finished by a bullet.

He may undergo a face-lifting operation, have his fingerprint convolutions obliterated, grow a beard or wear dark glasses, but the rule is that, in the end, he faces a few unemotional young men who are experts in the art of perforating the human body with globules of lead.

Take your pick, Mr. Federal Criminal—

trial, and then a term on Alcatraz, or a quick exit immediately.

RAILROAD BIDS ASKED 12 TIMES WITHOUT BUYER

MINNEAPOLIS, Minn. (UP)—No one could deny that U. S. Commissioner Howard S. Abbott is a persistent and patient man. On 12 occasions, since Sept. 5, 1935, Abbott has gone to the Cedar Lake office of the Minneapolis & St. Louis Railroad Co., and droned through a thick, legal document.

To read through the voluminous documents requires a little more than two hours. Burden of the contents of the thick file is the offer of sale of the M. & St. L. railway on foreclosure.

On each occasion, Abbott's two hours of reading have been wasted. Only an occasional clerk will stop to listen.

TRADE CENSUS MOVES TOWARD FIRST REPORTS

Figures Covering Several States to Be Issued Late in August

PHILADELPHIA, July 15—(UP)—Publication of a preliminary report on the Federal Census of American Business late next month is expected to reveal the trend of recovery during the past two years.

Fred A. Gosnell, chief statistician in charge of the survey, said first reports probably would contain complete figures for Arkansas and several other states which virtually have been completed.

A staff of 19,000 WPA workers, taken from relief rolls have been engaged in the field work since Jan. 1 compiling information from the corner grocer, the great industrialist, the neighborhood barber and the wealthy manufacturer.

Experts Do Tabulating

In the national headquarters here, 1,650 workers, specially trained in preliminary courses by Census Bureau experts, are checking, indexing and tabulating the returns on every business in the nation from the smallest merchant to the largest corporation.

A census of retail trade in 1929 showed sales totalling \$49,000,000,000. By 1933, the figure had dropped to \$25,000,000,000. Gosnell declined to make any flat predictions but said he thought this year's total would be a substantial increase over the latter figure.

The 1933 survey also will offer a basis for comparison in many smaller details, including the number of retail establishments, employees, payrolls, and sales by kinds of business. The 1935 census, however, is the most complete business survey ever attempted by the Department of Commerce.

Canvass 1,507,000 Firms

Approximately 1,507,000 firms of all classifications have been canvassed to date and Gosnell said the final figure probably would be 1,600,000 as compared with 1,543,060 in 1929 and 1,526,000 two years ago.

The chief statistician said the bureau had had no difficulty in obtaining a high type of personnel from federal relief rolls to do the work, some of which is highly complicated and technical.

"We are losing more and more of our workers to private industry," he said. "Many of them who had not been employed a year or two years were qualified for new jobs through the training course. That has been especially true of our tabulators here."

Final statistics on the census, with returns broken down into city, county, state, and kinds of business units for the entire country will be completed by June 30, 1937.

that women have the more retentive memories. There is no record that one of them has ever forgotten a promise of a new dress in the Spring.

GALVESTON BIDS FOR PORT HONOR

HOUSTON, (UP)—Galveston will win the title of the world's largest cotton port from Houston by Aug. 1 when it completes handling 300,000 bales for the American Cotton Cooperative Association, according to local port officials.

Port Houston has held top rank in cotton shipping and handling since 1924. Recently, however, the Cotton Concentration Corporation of Galveston contracted with the cooperative to handle its 300,000 bales.

The cotton will start moving bales on a non-profit basis through Galveston on July 1.

Arrangements for handling the cotton were made by George Sealy of the Galveston firm and E. E. Creekmore, New Orleans, vice president of the Cooperative Association.

Association officials here said the new route would effect a large saving on port and compress charges.

Since Aug. 1, 1935, Houston has exported 1,549,625 bales, with total receipts of 1,718,799 bales compared with Galveston's exports of 1,280,150 and receipts of 1,556,122 bales. Shifting of the 300,000 bales would place Galveston at the top.

Houston took the lead in 1924 when favorable rates were given the city because its location inland boomed the cotton and steamship industries at Galveston expense.

Most husbands are in a position to offer testimony in support of the theory of Biologist Wiggan

A RECIPE FOR RESULTS

If you want to hire a maid, rent a room, lease your home, sell your furniture, get rid of your car, find a partner, sell your business, recover a lost dog, engage a typist there is a sure, quick and economical way to do it. Use Herald Want Ads.

ONE DAY—2 Cents a Word THREE DAYS — 4 Cents a Word SIX DAYS — 7 Cents a Word

Here's how easy it is:

Decide what you want to say in your ad. Then write it, leaving out unnecessary words.

CALL 782 if you have a phone or drop by the service desk, Herald office. Read your ad to the ad-taker. She will help you with it, perhaps shorten it, and then will read it back to you for O. K.

That's all... except to sit back and wait for results which won't be long in coming because nearly everybody reads the Herald Classified Ads.

Beery, Erwin to Play Viva Villa on Radio Program

MONDAY EVENING SET FOR AIRING OF FAMED MOVIE

Johnny, Reporter, Role to Be Portrayed by Comedian Actor

Wallace Beery will play the role of the swashbuckling, roguish Mexican revolutionary hero, Pancho Villa, in the Radio Theater's presentation of "Viva Villa" Monday night, July 20, over the WABC-CBS network from Hollywood at 8 p. m. (EST).

For the accompanying comedy role of the newspaper reporter in "Viva Villa," written by Charlie McArthur and Ben Hecht, Director Cecil B. DeMille has signed Stuart Erwin. Beery and Erwin played the leading roles in the version of the story, which was

voted one of the ten best motion pictures of 1934.

Although not a newcomer to the Radio Theater, Beery is making his first appearance in the theater since it moved to Hollywood, and engaged DeMille as producer.

Stuart Erwin, who plays the role of Johnny, the reporter, is Villa's closest friend, and their conversations overflow with humor. Johnny, out on a binge, wires his paper that Villa has taken several cities. So it's up to Villa to do it, and he does, in terrific battles. He was glad to accommodate John, he says, adding: "But—Johnny—don't ever let this happen again."

Beery is one of Hollywood's most versatile, veteran character actors. "Viva Villa" was one of his greatest hits. In addition to his previous appearances on the Radio Theater, he has appeared on the air in numerous characterizations and as master of ceremonies.

His recent screen hits include

"The Mighty Barnum" and "Ah, Wilderness."

At the opening of the story, Pancho Villa is a Mexican boy, whose father, a peon, dies on the whipping post. Enraged at the sight of lashes swinging in the hands of soldiers of an oppressive government, young Pancho retaliates by stabbing a soldier and fleeing. There in a Mexican village his vindictive dreams were born.

The drama outlines how as Pancho Villa grew older, his hatred for the Mexican government became uncontrollable. Revolutionaries joined him, and a few years later the armies of Gen. Francisco Villa roved the plains, plunged through villages, annihilating enemies, singing the famed "La Cucuracha" as they rode on.

Throughout the story, Villa exhibits his flair for the dramatic.

Later, Villa's army of men who preferred to live dangerously with him than to submit to repressive laws against peons, team with a

reformer, Villa conquers more cities, finally pushing the reformer into the presidency.

In victory, Pancho Villa finds many disappointments, among them an order to disband his loyal army inasmuch as there is no one left to fight them. Sadly, he obeys, but he finds trouble in staying out of fights.

FICTION AND MOVIES
OVERLOOKED AIR TITLE

When Scripps Brown and Allie Love Miles decided to bring men and women from the radio audience to the microphone to discuss family problems on the air, they found selection of a name for the broadcast a difficult problem.

Scores of titles were discarded for various reasons. Finally, one of them said, "Why don't we simply call it 'Husbands and Wives'?" It's easy to remember, appropriate and gives listeners an idea of

what the program is all about in three words.

The other dissented, pointing out that "there must be at least a song, a book, a short story, a play and a movie copyright under that name."

A search of files at Washington revealed that the name "Husbands and Wives" had never been copyrighted and they decided to use it on the broadcast.

"It seems a little unusual," Brown says. "It's something we all live, talk about, read and hear daily—and never a play, book, or that name."

"Husbands and Wives" is broadcast over a WJZ-NBC network every Sunday at 6:30 p. m.

Wayne Putnam, and Duke counties back in the year they are listed in the name of chickens on farms January 1, 1936. There were over 12 million chickens in Ohio, and chickens were kept on 88.1 per cent of the farms in the state. Kent county had the greatest number of turkeys January 1, 1936.

The Ohio Birdkeepers' summer meeting will be held August 13, 14, 15 at Delphos. The production of money is an important industry in that locality and those people who attend the meeting will have a chance to inspect commercial aviaries as well as to attend general educational program.

RAIL TRAVEL TO SET YEAR PEAK, ROADS BELIEVE TO LOW FARES AND SPEED

Western Carriers Especially Optimistic;
12-Hour Time Saving to Mexico
City Among New Schedules

CHICAGO, July 15—(UP)—Railroad passenger traffic men are looking forward this year to what promises to be the heaviest season of travel of any time within the past decade.

Several factors enter into their optimistic outlook. Chief of these is that the Eastern lines, after a long fight, finally have been forced to reduce passenger fares to a level comparable to that in effect on Western roads since 1933.

Another is the super high-speed trains running west of Chicago. Travelers from the East have the opportunity of going to the West Coast on a two weeks' holiday without spending the major portion of the trip on the train as in days gone by.

Officials believe alarming increases in highway accidents will draw many motorists to train travel because of their safety record. The carriers point proudly to their record of 1935 when millions of passengers were carried without a single fatality.

Three Services Offered
Western vacation fares again are quoted at the level of last season when three types were offered: the Pacific Coast—tickets good for coaches only, tourist car tickets, and standard sleeping car tickets. Around trip making a complete circle of the coast, for example, starting at Chicago, thence to New Orleans, Los Angeles, San Francisco, Seattle and returning to Chicago, can be made for as little as \$12.75. First class tickets for the same trip sell for \$86, with Pullman space extra.

Previously, a flat rate of \$32.70 was charged between Chicago and New York. Now, however, a coach

COST OF RAZING SAVES ANCIENT MUKDEN WALLS

DAIREN, China (UP)—The wall surrounding the old city of Mukden, historical landmark for centuries, will survive the onward march of progress because the expense of tearing it down is greater than city authorities are willing to provide.

The wall, about 30 feet high and from 16 to 26 feet thick, is an encumbrance to traffic between the old and new cities. There are eight gates to accommodate an increasing amount of travel back and forth.

It has been estimated that it would cost more than 1,500,000 Manchurian dollars to tear down the wall.

The wall, built originally in the Yuan dynasty to protect the old town from invasion during the feudal days, was rebuilt in its present design by the Chinese emperor Taisung about 300 years ago.

PROFITS MOUNT FOR AUSTRALIAN WOOL GROWERS

SYDNEY, Australia, (UP)—American advertising methods are to be used this year to push the world-wide sale of the Australian wool crop.

A first attempt last year at advertising produced such astonishing results that all of the wool growers this year consented to a voluntary levy of 25 cents on each bale of wool for advertising purposes.

The experimental 1935 advertising campaign resulted in a 72 per cent increase in sales. The campaign was carried on along the lines of creating new fashions and consequently new demands in woolen wear.

rate is in effect, making the cost of a ride between the two largest cities in the nation \$18.20. First class tickets are \$27.25, Pullman fare extra.

Ten years ago, the fastest trip by rail from New York to Los Angeles required 92 hours. Today, the same journey can be made in 53 hours, 15 minutes. Most of the saving in time, has been effected on the Western roads with the Santa Fe and the Northwestern-Union Pacific running once-weekly trains between Chicago and Los Angeles in 39 hours, 45 minutes. On June 17 another fast streamliner was put in service over the Northwestern-Union Pacific-Southern Pacific to San Francisco on the same schedule.

Times Cut to Denver

Latest of the vacation time-savers is the addition of overnight service between Chicago and Denver on the Burlington route and the Northwestern-Union Pacific. These roads now supply trains making the trip from the Windy City to the Rocky Mountains in 16 hours. The distance on the Burlington is 1,034, and on the Union Pacific 1,048 miles. The average speed of the fliers is 65 miles an hour and 65.5, respectively. By using either of these trains, passengers with a two week holiday, may spend 12 days in the Rocky Mountain region, or 10 days in Yellowstone Park, allowing for the additional days' travel between Denver and the park. And one day each way to the East, and it will be seen that passengers as far away from these playgrounds as New York can now use the railroads and still have over a week in the mountains. The same radio applies to those who wish to go to the West Coast.

Persons desirous of going to the Southwest also are given the benefit of better than a day's additional pleasure by the re-arrangement of schedules and cutting of time on Southwestern lines running out of St. Louis.

Time Saved to Mexico City

The Illinois Central and the Alton Road offer 4 hour, 55 minute service to St. Louis from Chicago and the Missouri Pacific has slashed hours from its Sunshine Special, which speeds between the Mound City and Dallas, Houston and San Antonio. Twelve hours has been eliminated on the run between St. Louis and Mexico City on this train.

For the benefit of Midwesterners, the Northwestern and the Milwaukee Road have added "fishermen's specials" sections to the 400 and Hiawatha. 7 hours flyers running between Minneapolis and Chicago. These trains run into the famous Wisconsin lakes region.

With virtually all cars on all trains now air-conditioned, with low fares, and meals served to coach passengers for as little as 90 cents a day on the Western lines, it appears as if the forecasts of the passenger men for a banner year in railroad travel will be realized during vacation time.
